

# Lichtgitter USA Unveils New Slitting Line to Enhance Grating Production Capabilities

*Lichtgitter USA is proud to announce the installation and launch of a state-of-the-art slitting line.*

HOUSTON, TX, UNITED STATES, April 17, 2025 /EINPresswire.com/ -- Lichtgitter USA is proud to announce the installation and launch of a state-of-the-art slitting line, marking a significant step forward in its mission to deliver "Everything from One Source." This new capability strengthens the company's independence, expands its production range, and provides clients with unmatched flexibility in grating solutions.

Lichtgitter USA State-of-the-Art Custom Slitting Line Machinery

By processing steel coils in-house, Lichtgitter USA can manufacture a wider variety of grating products tailored to meet specific project requirements. This vertical integration not only enhances customization but also reduces reliance on external steel processors, providing a clear competitive advantage in the U.S. market.

"Bringing coil slitting in-house allows us to be more agile, responsive, and innovative," said Chris Sperry, CEO of Lichtgitter USA. "It reinforces our commitment to delivering high-quality, American-made grating products with greater speed and precision while staying true to our promise of offering 'Everything from One Source.'"

This strategic investment underlines Lichtgitter USA's ongoing commitment to growth, operational efficiency, and customer satisfaction. The increased control over raw material processing enables faster turnaround times, streamlined production workflows, and even more tailored solutions for clients across a wide range of industries.

As the company continues to expand its U.S. manufacturing capabilities, this move further cements Lichtgitter USA's position as a trusted, full-service partner in the grating industry.

Bringing coil slitting in-house allows us to be more agile, responsive, and innovative. It reinforces our commitment to delivering high-quality, American-made grating products with speed and precision"
