

MeTime Healing Receives \$125,000 Technology Innovation Grant to Advance AI-Powered Mental Health Platform

Digital platform aims to reduce stigma, strengthen emotional resilience, and build community through culturally responsive mental health support

GAITHERSBURG, MD, UNITED STATES, April 30, 2025 /EINPresswire.com/ -- [MeTime Healing LLC](#), a

“

This grant will help us accelerate our mission of building inclusive, supportive communities through real-time digital tools designed for long-term well-being.”

Feri Naseh

behavioral health and wellness company based in Montgomery County, Maryland, has been awarded a \$125,000 conditional grant from the Montgomery County Technology Innovation Fund to support the development of its AI-powered mental health support platform.

The platform, which emphasizes culturally sensitive care, aims to bridge critical service gaps for individuals experiencing behavioral health challenges by offering virtual peer support, emotional resilience training, and interactive self-help tools. Through its proprietary Triple-A

approach—Accessibility, Affordability, and Adaptability—MeTime Healing seeks to create stigma-free spaces for healing and growth, particularly for underrepresented and underserved communities.

“Millions of people with behavioral health needs face persistent barriers to recovery, from social stigma to a lack of affordable, relevant support,” said Feri Naseh, MBA, Founder and CEO of MeTime Healing. “This grant will help us accelerate our mission of building inclusive, supportive communities through real-time digital tools designed for long-term well-being.”

The funding from Montgomery County will enable MeTime Healing to enhance its technology and expand its impact across the Washington, D.C. metropolitan region. The company’s innovative platform is designed to foster digital community connections and promote preventative behavioral health strategies tailored to diverse populations.

The Technology Innovation Fund reflects Montgomery County’s commitment to supporting scalable technology solutions with the potential to improve public well-being. The initiative

provides early-stage funding to promising startups and businesses focused on addressing critical social needs through innovative platforms and products.

"On behalf of Montgomery County, Maryland, I wish to extend congratulations to MeTime Healing LLC for being awarded a \$125,000 grant from the Technology Innovation Fund," said Mark Elrich, county executive. "This grant program is a tangible demonstration of Montgomery County, Maryland's commitment to its business community. I understand that this grant will facilitate the MeTime Healing & Wellness: AI-Powered Mental Health Support Platform project and enable MeTime Healing LLC's further growth in Montgomery County, Maryland."

The advertisement graphic for MeTime Healing features a blue and green gradient background. At the top, the logo 'me time' is displayed in white, with a stylized heart shape above the 'e'. Below the logo, the text 'AI-Powered. Culturally-Sensitive. Always Within Reach.' is written in white. The graphic includes four service icons in white rounded rectangles: 'Culturally-Sensitive Therapist Matching' (with a speech bubble icon), 'Employee Assistance Programs' (with a person icon), 'AI-Powered Wellness Roadmaps' (with a book icon), and 'Live & On-Demand Workshops' (with a group of people icon). Below these, two statistics are highlighted with white star icons: '95% match success with culturally aware Therapists' and '16+ languages with 40+ cultural contexts available'. At the bottom left, there is an illustration of a woman sitting at a desk with a laptop, looking at a screen that shows a therapist. To the right of the illustration, contact information is listed: 'www.metimehealing.com', 'info@metimehealing.com', 'company/metime-healing', and '@metimehealingllc'.
