

# Mindcore Introduces Unified Secure Workspace Solution, Delivering Compliance, Security, and Speed Powered by Tehama

*Mindcore Technologies Launches Secure Workspace Solution to Support Hybrid Work and Compliance*

DELRAY BEACH, FL, FL, UNITED STATES, April 24, 2025 /EINPresswire.com/ -- [Mindcore](#) Technologies, a leading provider of cybersecurity and hybrid work services, is excited to announce availability of Mindcore's Secure Workspace Solution.

Mindcore's secure workspace breaks the mold of traditional DaaS offerings combining the security and governance of Data Enclaves with comprehensive security services and Virtual Desktop Infrastructure (VDI) on Azure. Powered by Tehama Technologies' cyberplatform, co-developed with Microsoft, Mindcore's Secure Workspace offers the ultimate in secure remote work solutions, delivering a second to none user experience and enterprise level cyber security that does not break the bank.

“

We built this platform to solve real business problems”

*CEO, Matt Rosenthal*

“We built this platform to solve real business problems,” said Matt Rosenthal, President and CEO of Mindcore Technologies. “Security, compliance, and productivity are no longer separate issues—they're all connected. Our

platform brings it all together, and enables us to deliver the speediest, highest quality and feature rich hybrid work solution in the market today. With Mindcore you are always compliant, secure and connected.”

Your One-Stop Shop for All Security, Compliance and Hybrid Work Needs

Mindcore's platform features seamless integration with Microsoft Azure Virtual Desktop and supports both Windows and Linux environments. For teams requiring high-performance computing, we also offer GPU-accelerated virtual desktops. Secure desktop provisioning is

achieved in minutes, enabling businesses to scale operations without compromising control or visibility. with leading industry certifications such as ISO 27001, SOC-2, PCI-DSS, and GDPR

### Secure, Compliant Hybrid work That Won't Break the Bank

In today's economy, organizations need solutions that deliver maximum value without excessive costs. Mindcore delivers an extensive breadth of services that helps customers remain compliant with both internal and government regulatory requirements while maintaining a cutting-edge security posture. The solution supports business continuity and disaster recovery through secure backup and restore tools, hybrid cloud infrastructure, and container-level cloud protection. Its robust governance framework—including role-based access controls, policy enforcement, session recording, and full audit trails—helps companies meet even the most stringent regulatory requirements while maintaining complete visibility and control over their environments.

### Comprehensive range of Managed Services

Whether managing third-party users or supporting remote teams, the Secure Workspace Solution offers end-to-end protection, flexibility, and performance as your true one-stop shop for all security, compliance, and productivity needs.

Mindcore provides the most extensive range of comprehensive security operations features that work together to provide round-the-clock protection:

- Secure hybrid workforce enablement
- Third-party & vendor access control
- Privileged Access Management (PAM)
- Zero-trust cybersecurity & endpoint protection
- Business continuity & disaster recovery
- AI-driven data governance & compliance auditing
- Digital forensics, red teaming & threat detection
- Advanced firewall, intrusion monitoring & DDoS defense
- GPU-powered workstations for engineering & design teams
- Business continuity and disaster recovery

### About Mindcore Technologies

Mindcore's Secure Workspace Solution is now available nationwide. Backed by the company's white-glove implementation services, strategic consulting, full deployment support, and 24/7 expert assistance, businesses can experience a secure transformation in under 30 days.
