

Blue Goat Cyber Leads the MedTech Cybersecurity Revolution at DeviceTalks Boston 2025

Empowering medical device innovators with FDA-ready cybersecurity strategies that accelerate secure product launches.

SCOTTSDALE, AZ, UNITED STATES, April 21, 2025 /EINPresswire.com/ -- [Blue Goat Cyber](#) is driving

“

We don't just test devices—we guide MedTech teams through the full cybersecurity lifecycle to achieve compliance faster and launch with confidence.”

Christian Espinosa, Blue Goat Cyber Founder and CEO

the next wave of MedTech cybersecurity innovation as a platinum sponsor of [DeviceTalks Boston 2025](#), which will take place April 30–May 1 at the Boston Convention and Exhibition Center. With over 1,600 MedTech professionals expected to attend, the event is a magnet for groundbreaking ideas and next-gen device development.

At Booth #631, Blue Goat Cyber will unveil how its cutting-edge cybersecurity services enable medical device manufacturers to confidently navigate today's evolving regulatory landscape. From Secure Product Development Frameworks (SPDFs) and threat modeling, to penetration

testing and SBOM validation, Blue Goat empowers innovators to bring safe, compliant, and secure devices to market—faster.

“Our mission is to eliminate cybersecurity as a barrier to innovation,” said Christian Espinosa, CEO of Blue Goat Cyber. “We partner with medical device teams to implement strategies that not only meet regulatory expectations, but accelerate go-to-market timelines. DeviceTalks is where those conversations happen.”

As regulatory demands intensify, Blue Goat Cyber stands at the forefront, trusted by device teams to integrate security from concept through commercialization. The company's leadership and expertise will be showcased in a can't-miss speaking session:

“Navigating FDA, EU MDR & Global Cybersecurity Compliance for Medical Devices”

□ Thursday, May 1 | □ 2:30 PM – 3:15 PM

□ Presented by Trevor Slattery, Chief Technology Officer, Blue Goat Cyber

Trevor will offer practical, actionable insights into building cybersecurity programs that align with global standards—and stand up to regulatory scrutiny.

Let's Talk Cybersecurity
