

PRP Labs Expands Portfolio of Advanced Regenerative Medicine Solutions

SAN DIEGO, CA, UNITED STATES, April 21, 2025 /EINPresswire.com/ -- PRP Labs, a leader in cutting-edge regenerative medicine solutions, is proud to announce its expanded product lineup, featuring premium platelet-rich plasma (PRP) and bone marrow concentrate (BMC) kits, centrifuges, and adipose tissue processing systems. These high-performance products are designed to support physicians, clinics, and researchers in delivering superior patient outcomes.

Featured Products:

1. EmCyt AbsolutePRP Gold (20ml)

A top-tier PRP system optimized for precision and efficiency in platelet concentration.

2. EmCyt PURE TWO PRP Kits (30ml, 60ml, 120ml)

Versatile PRP kits offering flexibility for various clinical applications.

3. EmCyt PurePRP SP Kits (30ml, 60ml, 120ml)

Specialized kits designed for superior platelet separation and yield.

4. EmCyt PureBMC Kits (30ml, 60ml, 120ml)

Advanced bone marrow concentrate systems for orthopedic and regenerative therapies.

5. EmCyt Plasma Protein Concentrating Kits (FC60 & FC120)

PRP Labs Logo

Emcyte Pure Two

Efficient plasma protein concentration for enhanced therapeutic applications.

6. PK50 Progenikine – Adipose Concentrate Kit

A breakthrough solution for processing adipose-derived stem cells and growth factors.

7. EmCytte Centrifuges (Sapphire Series & Executive Series II)

High-performance centrifuges engineered for reliability and precision in PRP and BMC processing.

Our mission at PRP Labs is to provide clinicians with the most advanced, reliable, and efficient tools for regenerative medicine. With this expanded product range, we're empowering healthcare professionals to deliver cutting-edge treatments with confidence.
