

Equator Appliances Releases RFI 1200 S Bottom Mount Refrigerator-Freezer with Built-In Ice Maker

HOUSTON, TX, UNITED STATES, May 2, 2025 /EINPresswire.com/ -- Equator Advanced Appliances has announced the release of the [RFI 1200 S](#) Bottom Mount Refrigerator-Freezer, a new model designed to offer flexibility, storage capacity, and energy-conscious performance for residential settings. The launch aligns with the company's ongoing effort to combine compact appliance design with long-term reliability and operational efficiency.

With a total capacity of 11.6 cu. ft., the RFI 1200 S includes a top refrigerator compartment measuring 8.2 cu. ft. and a 3.4 cu. ft. bottom freezer with built-in ice maker. This bottom-mount configuration is designed for users looking to optimize space while maintaining access to essential food storage and preservation features. The appliance measures 73.2 x 23.4 x 25.6 inches (HxWxD) and is ETL-certified.

Key features include fan-assisted cooling, frost-free operation, high/low temperature alerts, and door-open alarms to maintain consistent internal conditions. The unit includes two crisper drawers, adjustable shelves with silver trim, a dedicated chiller drawer, and a top LED light. The freezer compartment houses three drawers and an automatic ice maker capable of producing up to 1.8 pounds of ice per day.

Additional design elements include a fingerprint-resistant stainless steel finish, a flat back for flush installation, a reversible door, and adjustable front feet. Users also have access to Holiday Mode, Sabbath Mode, and an Eco Function for energy conservation.
