

GROUNDBREAKING NON-INVASIVE THERAPY □TREATING FIRST RESPONDERS AND VETERANS, □SCORES BIG WITH PROFESSIONAL ATHLETES

VECTTOR™ Technology, a groundbreaking non-invasive therapy designed to treat chronic pain and neurological disorders, is scoring big with professional athletes.

WIMBERLEY, TX, UNITED STATES, April 28, 2025 /EINPresswire.com/ --

[VECTTOR™](#) Technology, a groundbreaking, non-invasive, medication-free treatment for chronic pain which has already been used to help first responders and military veterans, scores big with professional athletes.

An FDA-cleared treatment system for the management of chronic pain, VECTTOR™ has shown promising results in the management of Complex Regional Pain Syndrome (CRPS), as well as other neurologic and traumatic conditions.

“

As conventional options fall short, The VECTTOR™ Project provides a safe, drug-free alternative that's backed by science and real-world results”

Anthony Spadaro Jr.

Invented by Dr. Donald Rhodes DPM, VECTTOR™ uses painless electrical stimulation to activate the body's natural healing systems, when standard treatments have fallen short. Patients including military veterans, first responders, and professional athletes have reported significant and in fact, often dramatic, improvement in their symptoms, after years of unproductive pharmaceutical treatment.

“As conventional options fall short, VECTTOR™ provides a

safe, drug-free alternative that's backed by science and real-world results. We are excited to bring this innovation to every market where pain has become a silent epidemic,” stated Anthony

Spadaro Jr, founder of [The Star Fund®](https://www.thestar.fund), and Managing Partner of The VECTTOR™ Project. “These proven strategies and modalities are often more effective and less-invasive than conventional therapies, without relying on the use of addictive pharmaceuticals or contributing to the current opioid crisis.”

The VECTTOR Project incorporates a results-driven team of multi-specialty providers and dedicated technicians that address the root causes of pain and neurologic symptoms faced by first responders, veterans, and professional athletes. VECTTOR™ delivers a more productive and healthy patient population with an enhanced quality of life; while at the same time, lowering healthcare expenses.

The Mission and Vision of The Star Fund® is to deliver private donor funding, strategic investors and medical collaborators to the VECTTOR™ Project. The Primary Objective: Advance the Vecttor™ Wellness and Recovery 'WAR' Rooms, Mobile Units, and Private Treatment Centers, to all our heroes. The Project is also accelerating its clinical research.

□ Additionally, The Star Fund® is offering legacy naming right opportunities to large donors.
□ □ The Star Fund® & The Vecttor Project™ have also created and developed socially good, high exposure brand partnership opportunities, for local, regional, national, and globally recognized brands. The The Star Fund® is located at: <https://www.thestar.fund>
