

Global Veterinary Rehabilitation Services Market to Surpass USD 2.1 Billion by 2033, exhibiting a CAGR of 9.06% | FMI

The Veterinary Rehabilitation Services market is projected to grow from 2023 to 2033, driven by increasing demand for animal recovery therapies.

NEWARK, DE, UNITED STATES, April 25, 2025 /EINPresswire.com/ -- The global [veterinary rehabilitation services](#) market is experiencing a transformative growth phase, driven by the rising global awareness of pet wellness and the exponential increase in pet ownership. According to a recent market analysis, the sector recorded a valuation of USD 792.5 million in 2022 and is projected to reach USD 882 million by the end of 2023. With a robust compound annual growth rate (CAGR) of 9.06%, the market is forecasted to hit a remarkable milestone of USD 2.1 billion by 2033.

“

North America led the veterinary rehabilitation services market with over 35.1% share in 2022, driven by more centers, awareness, and rising pet ownership.”

Sabyasachi Ghosh, Principal Consultant. Future Market Insights

This impressive growth trajectory reflects a broader trend of pet humanization, where pets are increasingly treated as integral family members. As a result, pet owners are seeking advanced, specialized care to ensure a better quality of life for their animal companions, fueling demand for veterinary rehabilitation services.

In recent years, there has been a profound shift in how pet owners perceive and approach animal healthcare. The increased recognition of post-surgical rehabilitation and holistic therapy approaches—ranging from hydrotherapy and therapeutic exercises to acupuncture and manual therapy—has redefined the standards of pet care.

“Today's pet parents are more informed, engaged, and willing to invest in cutting-edge rehabilitation treatments for their animals,” said a Future Market Insights analyst. “This shift toward automation and efficient treatment workflows is enabling practitioners to offer better outcomes, even in complex recovery scenarios.”

Veterinary rehabilitation services are designed to restore physical functionality, relieve pain, and enhance overall wellness in animals. With veterinarians and rehabilitation experts working collaboratively to develop customized treatment plans, animals now have access to the same caliber of rehabilitative care traditionally reserved for humans.

Key Market Insights

- Market Size Valued at USD 882 million in 2023; expected to reach USD 2.1 billion by 2033.
- Growth Rate Projected CAGR of 9.06% over the forecast period.
- Companion Animals Will lead the animal type segment with 70% market share by 2033.
- Therapy Type Therapeutic exercises to generate the highest revenue among therapies.
- Indication Type Post-surgery treatment dominated with 31% market share in 2022.
- End Use Veterinary rehab centers led with a 45.8% share in 2022.
- Regional Outlook Asia Pacific (APAC) to register the highest CAGR of 13%.

Key Market Drivers

1. **Strong Emotional Bond:** The emotional bond between pet owners and their animals is stronger than ever, driving demand for wellness-oriented services.
2. **Medical Advancements:** Innovations in medical technologies such as [laser therapy](#), electrotherapies, and shockwave therapy are enabling better patient outcomes.
3. **Increasing Surgical Interventions:** Increasing surgical interventions in pets due to orthopedic issues or [chronic diseases](#) are boosting the need for follow-up rehabilitation.

4. **Global Expansion:** The expansion of veterinary rehabilitation centers and specialty hospitals globally is enhancing service accessibility.

5. **Regulatory Advancements:** Recent regulatory advancements are facilitating the availability of pain relief and sedation options tailored specifically for animals.

The industry has recently witnessed several significant milestones that underscore its rapid evolution:

The industry has recently witnessed several significant milestones that underscore its rapid evolution:

- **Zenalpha (April 2022):** The U.S. FDA approved Vatinoxan hydrochloride in combination with Medetomidine for sedation in canine procedures. This combination minimizes cardiovascular side effects and improves overall safety during minor surgeries.
- **Zorbium (January 2022):** Elanco Animal Health received FDA approval for Zorbium, the first transdermal buprenorphine-based solution designed to manage postoperative pain in cats. This formulation offers up to four days of pain relief from a single application, representing a breakthrough in feline pain management.

The veterinary rehabilitation services market is moderately consolidated with key players leveraging innovation and strategic partnerships to expand their global presence. Major industry participants include:

The veterinary rehabilitation services market is moderately consolidated with key players leveraging innovation and strategic partnerships to expand their global presence. Major industry participants include:

- Back on Track Veterinary Rehabilitation Center LLC
- Animal Acupuncture and Rehabilitation Center
- BARC
- Treasure Coast Animal Rehab & Fitness
- Animal Rehab Center of Michigan
- Blue Springs Animal Rehabilitation Center
- Essex Animal Hospital
- Triangle Veterinary Referral Hospital
- Butterwick Animal Rehab Clinic Ltd
- Animal Rehab and Conditioning Center

These companies are investing in new treatment protocols, expanding their geographic reach, and acquiring niche providers to strengthen their service offerings.

Healthcare Services Market Segments

Animal Healthcare Services:

- Companion Animals
- Wildlife Animals
- Production Animals

Physical Therapy Services:

- Therapeutic Exercises
- Manual Therapy
- Hydrotherapy
- Electrotherapies
- Acupuncture
- Hot & Cold Therapies
- Shockwave Therapy
- Others

Rehabilitation Services:

- Post-Surgery
- Traumatic Injuries
- Chronic & Acute Diseases
- Developmental Abnormalities
- Others

Rehabilitation Settings:

- Veterinary Rehab Centers & Hospitals
- Rescue & Shelter Homes
- Rehab Sanctuaries
- Others

Geographic Segments:

- North America
- Europe
- East Asia
- South Asia
- Oceania
- Latin America
- Middle East and Africa
