

Qualiphy Simplifies Good Faith Exams for Medical Spas and Clinics

BEVERLY HILLS, CA, UNITED STATES, May 2, 2025 /EINPresswire.com/ -- In response to growing demand for compliant, accessible healthcare solutions, Qualiphy has launched a turnkey telehealth infrastructure for aesthetic clinics, medical spas, and elective care providers operating across all 50 U.S. states and Washington, D.C.

Qualiphy offers a white-labeled telehealth platform combined with a licensed provider network. Built specifically for elective medicine and aesthetics, the platform allows clinics to deliver services such as [Good Faith Exams \(GFEs\)](#), urgent care consultations, and prescription fulfillment—without the need to hire internal medical staff or develop in-house telehealth systems.

As regulations tighten and patient expectations evolve, many aesthetic practices are looking for ways to maintain compliance, reduce overhead, and meet patients where they are. Qualiphy's solution enables providers to expand service lines while preserving their brand identity and clinical standards.

The platform's core features are designed to help clinics improve patient access and streamline operations:

1. **Good Faith Exams (GFEs):** Licensed professionals conduct fully compliant consultations through a secure, custom-branded interface—available instantly, with no scheduling required.
2. **Urgent Care Services:** Patients can access consultations seven days a week for conditions such as UTIs, pink eye, cold sores, acne, bacterial vaginosis, and nausea. Treatment and prescriptions are delivered in real time.
3. **White-Labeled Telehealth:** Clinics retain full branding throughout the virtual care experience, providing continuity from intake to treatment.

4. Pharmacy Integration: Medications are fulfilled and shipped directly to patients through licensed pharmacy partners, removing the need for clinics to manage prescriptions in-house.
5. EMR Compatibility: Integration with Aesthetic Record ensures that consultations, prescriptions, and patient records are synced with the clinic's existing systems.
6. Flat-Rate Pricing: Clinics pay a flat rate of \$27.99 per consultation with no setup or subscription fees, enabling predictable scaling based on demand.
7. Multi-State Compliance: Qualiphy's compliance team oversees licensure verification, physician oversight, chart audits, and regulatory alignment across all supported states.

Meeting the Challenges of Modern Elective Care:

As elective and aesthetic medicine expands beyond traditional in-office consultations, clinics are increasingly seeking ways to serve patients virtually—especially for pre-treatment evaluations, post-procedure check-ins, and prescription-based therapies.

Qualiphy's infrastructure helps providers remain compliant while meeting modern expectations for speed and convenience. By outsourcing key components of virtual care—such as provider access, platform development, and pharmacy coordination—clinics can operate more efficiently without compromising quality or compliance.

To further support its growing customer base, Qualiphy will soon introduce at-home lab testing kits. This enhancement aims to provide more diagnostic and therapeutic support for aesthetic and elective practices looking to offer holistic care from consultation to treatment.

About Qualiphy:

Qualiphy is a nationwide telehealth provider network and partner platform supporting elective medicine, medical spas, and aesthetic clinics. Operating in all 50 U.S. states and Washington, D.C., Qualiphy enables clinics to scale services, streamline operations, and maintain regulatory compliance through a white-labeled, all-in-one solution.
