Lean Six Sigma is a practical, proven approach for improving quality and efficiency. Our in-person Green Belt training gives participants real-world tools they can apply right away."

*Anthony "Tony" Cerilli, Senior
Vice President of Client
Services*

Why You Should Attend:

- **Advance Your Career:** Stand out with a respected industry credential that demonstrates your ability to lead change and deliver ROI.
- **Deliver Meaningful Results:** Learn how to identify root causes of problems, eliminate waste, streamline processes, and boost productivity.
- **Gain In-Demand Skills:** Master Lean Six Sigma tools and techniques from data analysis to team leadership and project management.
- **Make an Immediate Impact:** Apply what you learn right away with a hands-on simulation and personalized project

coaching to reinforce your skills.

"Lean Six Sigma is a practical, proven approach for improving quality and efficiency. Our in-person Green Belt training gives participants real-world tools they can apply right away. After the course, we provide limited remote mentoring to support participants as they complete a certification project. Companies that invest in this training benefit from immediate project results and long-term gains in operational excellence—while also developing skilled, confident employees ready to lead future improvement efforts." said Anthony "Tony" Cerilli, Senior Vice President of Client Services.
