"Writing has always been a part of me," Sand reveals. "But Chasing the Calm was the moment everything clicked. It's messy, it's real, and it's everything I needed to say."

Chasing the Calm is not just another romance novel. It's a heart-thumping, soul-baring journey through love, healing, and self-discovery — wrapped in laugh-out-loud moments and the kind of spicy tension that lingers long after the last page.

Early readers are calling Sand's voice "fearlessly authentic" and "shockingly relatable," praising her ability to capture the wild contradictions of modern love with rare emotional precision. Her characters don't just fall in love — they fight for it, break for it, and ultimately grow because of it.

"My heroines are messy, strong, stubborn, and beautiful in their chaos," Sand says. "Love doesn't save them. They save themselves first. And when the right person shows up, it's a partnership — not a rescue."

Inspired by her own experiences, Sand weaves real-world grit and glitter into her storytelling. Writing *Chasing the Calm* became a deeply personal act of reckoning, growth, and ultimately — triumph.

"I grew up in a world where talking about love felt forbidden," Sand shares. "This book ripped that silence apart. It taught me that loving openly is the bravest thing we can do."

The early impact is undeniable. Advance readers are raving about the emotional ride, the sharp humor, and the deep resonance Sand's story leaves behind.

"Every single reader has told me they feel changed," Sand says. "They see themselves differently. And honestly, that's everything for me."

Chasing the Calm is available now for preorder ahead of its worldwide launch on May 23, 2025.

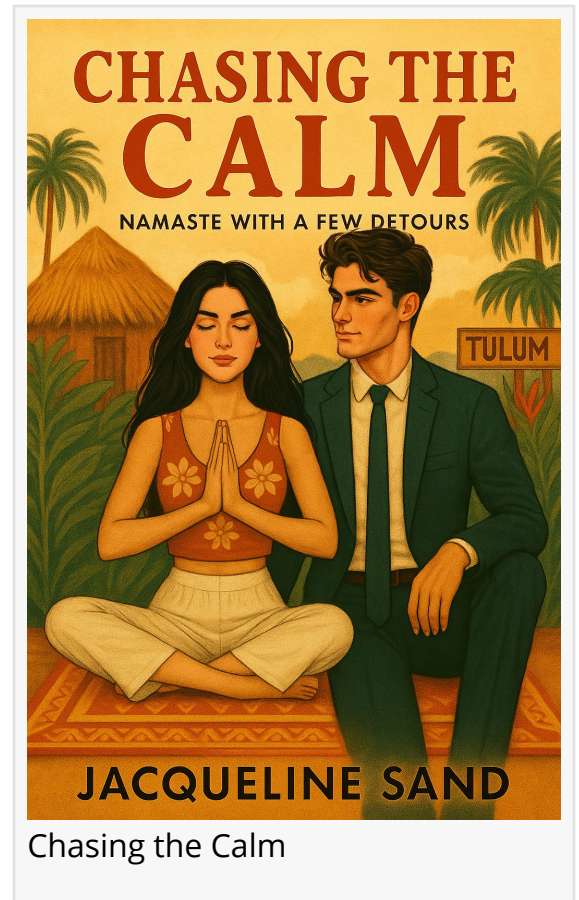

“

I write about characters who think they're invincible — until they discover their own humanity is the most powerful thing they have.”
