The Star Performer designation displays 4L Data's significant year-over-year improvement across market impact and vision and capability dimensions, highlighting the company's rapid growth trajectory in the payment integrity space.

Everest Group's comprehensive assessment evaluated 24 healthcare payment integrity solution providers based on their market success and overall capabilities. 4L Data Intelligence's provider-centric approach to program and payment integrity and FWA prevention, patented Integr8 AI Risk Detection™ technology, and the innovative 4L SIU™ Hub were commended as key differentiators in the report.

"4L Data Intelligence has responded to these evolving demands with a near-real-time monitoring solution for provider demographics and data integrity, while also adopting outcome-based pricing models in line with client expectations.
