

SmartBooqing Achieves 'Built for NetSuite' Status

New SuiteApp for accounts payable automation meets Oracle NetSuite SuiteCloud Platform development standards and best practices

HENGELLO, OVERIJSEL, NETHERLANDS, April 28, 2025 /EINPresswire.com/ -- [SmartBooqing](#), a leader in AI-powered accounts payable (AP) automation, today announced that its SuiteApp has achieved the '[Built for NetSuite](#)' status. The new SuiteApp, built using the Oracle [NetSuite](#) SuiteCloud Platform, helps organizations further streamline invoice processing and reduce manual tasks.

"This SuiteApp combines NetSuite's comprehensive ERP capabilities with SmartBooqing's AI-powered AP automation solution," said Patrick Hansen, chief revenue officer, SmartBooqing.

“

This SuiteApp combines NetSuite's ERP capabilities with SmartBooqing's AI-powered AP automation to simplify financial workflows, reduce manual tasks, and boost productivity."

Patrick Hansen, Chief Revenue Officer, SmartBooqing

"The integration helps companies of all sizes further simplify financial workflows, reduce manual processes, and enhance productivity."

The SmartBooqing SuiteApp helps NetSuite customers further automate data entry, reduce manual errors, and enhance real-time financial data synchronization. In addition, the SuiteApp offers multi-currency and multi-language support for global business management.

"Businesses need efficient accounts payable processes to help optimize cash flow," said Scott Derksen, vice president, Partnerships and Business Development, Oracle

NetSuite. "This new SuiteApp extends our robust solution for accounting and helps NetSuite customers further centralize financial workflows, improve productivity, and control costs."

Built for NetSuite is a program for NetSuite SuiteCloud Developer Network (SDN) partners that provides the information, resources, and methodology required to help partners verify that their

applications and integrations meet NetSuite standards and best practices. The Built for NetSuite program is designed to give NetSuite customers additional confidence that SuiteApps, like SmartBooqing, have been built to meet these standards.

About SuiteCloud

Oracle NetSuite's SuiteCloud platform is a comprehensive offering of cloud-based products, development tools, and services designed to help customers and commercial software developers take advantage of the significant economic benefits of cloud computing. Based on NetSuite, the industry's leading cloud-based financials / ERP software suite, SuiteCloud enables customers to run their core business operations in the cloud, and software developers to target new markets quickly with newly-created mission-critical applications built to extend the power of NetSuite.

The SuiteCloud Developer Network (SDN) is a comprehensive developer program for independent software vendors (ISVs) that build apps for SuiteCloud. All available and approved SuiteApps are listed on SuiteApp.com, a single-source online marketplace where NetSuite customers can find applications to meet specific business process or industry-specific needs. For more information on SuiteCloud and the SDN program, please visit
