

Focus Molded Company Awarded OEKO-TEX STANDARD 100 Certification for Molded Bra Cups

New certification affirms product safety and global compliance for Vietnam-based manufacturers serving international intimate apparel brands.

BINH PHUOC, VIETNAM, April 29, 2025 /EINPresswire.com/ -- Viet Nam Focus Underwear Assist Company Limited ("Focus Molded Company"), a Vietnam-based manufacturer specializing in [molded bra cups](#), has been officially awarded the OEKO-TEX® STANDARD 100 certification—one of the world's best-known labels for textiles tested for harmful substances.

The certification covers molded bra cups made from 100% polyester knitted fabric and polyurethane foam, confirming that the materials used in Focus's production process meet rigorous safety standards and are free from substances harmful to human health.

Trusted Certification for Global Confidence

Issued following an independent evaluation, the OEKO-TEX® STANDARD 100 label verifies that Focus's molded bra cups meet globally recognized safety requirements for textile products. This certification enhances supply chain transparency for brands sourcing from Southeast Asia and supports ongoing efforts to improve sustainability and compliance within the apparel industry. "We are proud to have obtained OEKO-TEX® STANDARD 100 certification, which affirms our commitment to producing high-quality products with verified safety and reliability," said Robert Yang, General Manager at Taiwan Focus Molded and Vietnam Focus Molded Companies. "This milestone supports our partners' trust and strengthens our position as a dependable manufacturing partner in Vietnam."
