

# Ron Gordon Watch Repair Announces Blog Post on TAG Heuer Formula 1 Solargraph: Where Solar Energy Meets Swiss Precision

*The post explores and explains how the TAG Heuer Formula 1 Solargraph reimagines the original 1986 Formula 1 series.*

NEW YORK, NY, UNITED STATES, May 1, 2025 /EINPresswire.com/ -- New York City's top-rated [TAG Heuer](#) repair and service shop, is excited to announce a new blog post focused on the recently launched TAG Heuer Formula 1 [Solargraph](#). This latest post to Ron's witty blog celebrates how TAG Heuer masterfully combines a passion for Swiss watches with his keen eye on the watch news. As announced by TAG Heuer, new solar technology has produced a watch collection that matches New York City residents' love for technology, accurate time management, and style. 

“

We're seeing more brands embrace sustainability even in watchmaking. TAG Heuer has given us a striking example of a new watch that combines historic technology with environmental consciousness.”

*Ron Gordon*

“We're seeing more brands embrace sustainability even in watchmaking. TAG Heuer has given us a striking example of a new watch that combines historic technology with

environmental consciousness,” explained Ron Gordon, proprietor of Ron Gordon [Watch Repair](#). He continued, “In a city like New York City, where energy and style go hand in hand, the Solargraph is a perfect combination the emerging sustainability agenda.”

The full blog post can be found at <https://www.rongordonwatches.com/2025/04/tag-heuer-formula-1-solargraph/>.

Here is background on this release. The post explores and explains how the TAG Heuer Formula 1 Solargraph reimagines the original 1986 Formula 1 series. It draws inspiration from its colorful heritage. It uses a solar-powered quartz movement (Calibre TH50000), meaning just one minute of light exposure powers the watch for an entire day. Here's something amazing: once fully charged, the Solargraph can operate for up to 10 months without additional charging. With this innovation, TAG Heuer now offers a timepiece that is both environmentally forward-looking and yet true to its historic roots in motorsports.

The watch is available in various colors and materials—including vibrant rubber straps and sleek sandblasted steel. Its versatility is ideal for New Yorkers who want both style and performance from their watches. Whether attending meetings in Midtown, running errands downtown, or escaping the city on weekends, watch-lovers will appreciate the watch's 100m water resistance, durable construction, and vibrant, easy-to-read dial designs enhanced with Super-LumiNova®. Complete information can be found at
