

Amerant Bank Selects Omnilert AI Technology for Enhanced Video Surveillance Security

All Amerant Bank locations will now have Omnilert technology installed for greater protection and rapid response in the event of a crisis

omnilert®

LEESBURG, VA, UNITED STATES, May 1, 2025 /EINPresswire.com/ -- Omnilert, a

leader in AI-driven safety solutions and [AT&I Systems](#), today announced that [Amerant Bank](#) has chosen [Omnilert's AI technology](#) to help bolster the security at all of its locations in Florida. AT&I Systems, a longtime security partner of Amerant Bank, was chosen as the security integrator. Omnilert's software, which recently received the full SAFETY Act Designation by the U.S. Department of Homeland Security (DHS), will be integrated into more than 160 existing Amerant Bank cameras to provide advanced 24/7 surveillance with automated response capabilities.

"Omnilert technology has become a key layer of security that can transform traditional surveillance capabilities and ensure a fast, robust and automatic response in an emergency," said Dave Fraser, CEO of Omnilert. "With our software running non-stop in the background, Amerant can focus on carrying out their daily business knowing their workers and patrons are being kept safe from harm."

"At Amerant Bank, we are always looking for new and innovative ways to enhance the safety of our bank locations, and Omnilert's AI technology will be an important part of our overall security infrastructure," said Orlando Gonzalez, Head of Corporate Security at Amerant Bank. "Integrating the software into our existing cameras made the installation quick and seamless, and once installed, it transformed these cameras into powerful, intelligent surveillance devices that are constantly detecting potential threats."

About Omnilert

Omnilert delivers a proactive, AI-powered gun detection and automated response solution that saves lives and reduces the operational, legal and social costs of gun violence by enabling existing security cameras to identify firearms the moment they are brandished. Once verified, the system initiates a rapid, multi-layered response that includes locking doors, alerting first responders, and providing real-time intelligence. Recognized by the U.S. Department of

Homeland Security's SAFETY Act as a designated anti-terrorism technology, Omnilert is a trusted partner of organizations across multiple industries, including K-12 schools, higher education, government, healthcare, retail, enterprise, corporate campuses, manufacturing, critical infrastructure, transportation hubs, entertainment venues, and places of worship.
