The expansion into Etobicoke ensures families have access to high-quality, affordable education that is closer than they think, with an emphasis on academic excellence, the arts, and athletics from the earliest years.

“What we know is that many families with young children want a school close to home, a school within a very short drive or even within walking distance,” said Gabrielle Bush, Director from Newton's Grove School from a recent press conference to share the announcement. “When it came to our attention that an amazing space at Bloor and Kipling became available, we were very quick to explore it as a real opportunity to meet the needs of families with young

children in the Etobicoke community.”

Key features of the new Etobicoke campus include bright, inviting classrooms filled with natural light, flexible learning environments designed to engage young minds, and small class sizes that support enriched, balanced programming. The campus will also foster a nurturing, close-knit neighbourhood-school atmosphere, creating a strong sense of community where every child feels supported and inspired to grow.
