# ANY.RUN Expands Coverage of Recent Cyber Threats and Simplifies Security Integrations via SDK

DUBAI, DUBAI, UNITED ARAB EMIRATES, May 1, 2025 /EINPresswire.com/ -- ANY.RUN, a leading provider of interactive malware analysis and threat intelligence solutions, has published its April 2025 service updates that helps businesses speed up threat investigations, enhance detection of the latest cyber attacks, and streamline security operations.

ANY.RUN added 902 Suricata rules, 91 behavior signatures, and 13 YARA rules, strengthening detection of malware like ANUBIS, HELLOKITTY, and OUTLAW across Android, Windows, and Linux. Tracking of vulnerabilities CVE-2025-0411 and CVE-2025-24071 allows companies to

identify these emerging risks early and minimize business disruptions as a result.
