Belief Center For Family Therapy has earned a strong reputation within the Olympia community, with glowing reviews from countless satisfied clients. Below are just a few of the many positive testimonials from clients who were highly impressed by Belief Center For Family Therapy's communication and exceptional service:

"...In the beginning of 2024, I began working with Dupre, and it has been a transformative experience. I've had individual counseling sessions, appointments with both my son and husband, as well as sessions with just my son or just my husband.... However, the growth I've experienced has made me a better mom, wife, and leader. Seeing such incredible results with Dupre, I even referred two of my employees to him, and they've been just as happy with their progress. It may sound a bit dramatic, but Dupre truly changed my life for the better. I now have a much stronger relationship with myself and my son, husband and the people I work with. So, if you're ready for real change, I highly recommend booking an appointment with Dupre. Be open-minded, do the work, and it just might change your life, too!"

"I feel incredibly lucky finding Dupre at Belief Center for Family Therapy! After only a few months of relationship trauma and abuse therapy after my difficult divorce, my mental health continues to improve beyond what I imagined. I am usually anxious talking face to face with someone new, but he makes you feel very comfortable, explains the mechanics of the mind, and helps you understand and work thru emotions & more. I'd give 10/5 stars if I could! Highly recommended."

"I've been seeing Dupre for approximately 4 years. I have gone through some major life changes and he has been there to help guide, teach, validate, encourage and support in every way. Such an amazing man to have on your side while trying to figure out life. Every session we have, he listens intently and we are able to peel away to the root of the topic at hand. He also ends each session with different points of view to think on, a new tool to put in the tool box, or home work to help elaborate on some questions that came up. If you follow through and continue working on yourself, loving yourself, you'll find exponential growth that bleeds into all aspects of your life. Therapy is hard, but Dupre makes it worth going to."

"Dupre shows a complex understanding of how past trauma and daily stresses affect our relationships and mental health. His friendly demeanor and empathy allow a safe space to really open up. I've been in therapy with him for over a year and it's been life-changing. I highly recommend Dupre!"
