David Tuttle

David invites readers to accompany him through significant life events that cause the lines between the visible and invisible to blur in 'Soul Licensed: Tips and Tales.' Every tale, from angel numbers to license plates, from the healing power of Reiki to remarkable psychic readings in Sedona, captures the nuanced yet significant guidance we frequently ignore in day-to-day living.

The trailer also introduces Jane, a companion on this spiritual path, and hints at the healing energy that blossoms between them. Together, they explore the invisible threads of energy surrounding them—opening their “third eye” and unlocking a deeper sense of purpose and connection.

David Tuttle’s background is as varied and compelling as the stories in his book. A U.S. Army combat medic turned journalist, press agent, financial advisor, and Reiki Master/teacher, David combines grounded life experience with a uniquely spiritual lens. His adventures span skydiving in New Zealand, volcano skiing in Chile, and meditating under the stars in Idaho—yet his greatest expedition has been into the landscapes of the soul.
