leading growth partner for dental practices, and [Dental Protection Group](#), a premier provider of dental treatment warranties, are proud to announce a strategic partnership that will reshape how dentists provide value to their patients—by offering 5-year dental warranties bundled with access to capital for practice growth.

This groundbreaking collaboration merges marketing innovation with patient care protection, enabling dental practices to attract more patients, build trust, and generate more revenue. Dentists enrolled in the program will be able to provide patients with peace of mind through long-

term treatment guarantees while also benefiting from flexible funding to invest in technology, training, and expansion.

“This partnership is about creating real, measurable value for dental practices,” said Chad Levin, CEO of 7 Digit Dental. “By combining our patient acquisition systems with Dental Protection Group industry-leading warranty platforms, we’re equipping dentists with tools that increase case acceptance, retention, and revenue—while making high-quality care more accessible.”

Dental Protection Group’s 5-year warranty program protects both the practice and the patient by ensuring coverage on a wide range of restorative and cosmetic treatments. The addition of access to capital—through earned and premium dollars—allows practices to reinvest in growth without disrupting cash flow.

“Warranties increase patient confidence and practice credibility,” said Max Zanan, CEO of Dental Protection Group. “Adding access to funding makes this partnership a total practice solution,

helping dentists grow while delivering unmatched peace of mind to their patients."
