“The goal is to provide an in-depth, objective, and strategic perspective on the issues that define the present and future of our communities, both in the United States and Latin America. By collaborating with Gateway Hispanic, we want to contribute to an informed debate, from a bilingual perspective, about the role we play in an increasingly complex international landscape,” said Dr. Rafael

Marrero.

Gateway Hispanic is a key platform for understanding how political decisions in Washington impact the daily lives of millions of Latinos, as well as the ties between the United States and

Latin America. With a rigorous, diverse, and current affairs-focused editorial approach, the platform promotes interviews with experts, opinion leaders, and high-level public figures.

MSI², for its part, has a team of experts in strategic intelligence, defense, and public policy with decades of experience in the government and private sectors. Its goal is to promote stability, democracy, and prosperity in the United States and the region by providing high-level analytical tools to both decision-makers and media outlets committed to truth-telling.

This collaboration between MSI² and Gateway Hispanic aligns with the mission of both institutions to disseminate strategic, reliable, and accessible information that contributes to strengthening political dialogue, democracy, and civic awareness within the Hispanic community.
