

Retirement Tax Consultants Releases Million Dollar Challenge

A Strategy to Recover Up To a \$1,000,000 in Lifetime Wealth

MCKINNEY, TX, UNITED STATES, May 5, 2025 /EINPresswire.com/ -- [Retirement Tax Consultants](#) today announced the launch of its groundbreaking [Million Dollar Challenge](#), a bold initiative designed to help retirees and pre-retirees uncover strategies that could potentially recover up to \$1,000,000 or more in lifetime wealth lost through inefficient retirement planning.

Many Americans are unknowingly and unnecessarily transferring a significant portion of their hard-earned retirement savings due to avoidable issues such as poor tax planning, hidden fees, healthcare costs, and poorly structured income distribution strategies. Retirement Tax Consultants aims to expose these costly pitfalls and offer personalized solutions to help clients retain and enjoy more of their retirement assets.

David Hyden, President/Founder

“Our mission is simple,” said David Hyden, Founder and President of Retirement Tax Consultants. “Most people don't realize how much wealth they're losing over time. Through the \$1,000,000 Challenge, we shine a light on the hidden inefficiencies in their retirement plans and show them a better way forward.”

“

We are the bridge between your Accountant and Financial Advisor: We do what they don't”

David Hyden

Pricing for the \$1,000,000 Challenge is straightforward. Retirement Tax Consultants charges 1% of what they can recover. For example, if they recover \$1,000,000 of additional lifetime wealth the client would pay \$10,000.

Results are guaranteed. If the client is dissatisfied the fee is refunded.

The \$1,000,000 Challenge is not a gimmick or sweepstakes—it is a strategic evaluation process backed by decades of tax planning, investment knowledge, and retirement income expertise. Participants will receive a comprehensive Retirement Plan Report that highlights where they may be overpaying and identifies actionable steps to potentially recover hundreds of thousands of dollars in lifetime value.

Who should take the challenge?

- Individuals and couples age 50+
- Those nearing or in retirement
- Anyone with \$500,000 or more in retirement savings
- People concerned about taxes, healthcare costs, or running out of money in retirement
