Starlink Installation Services in California

“Californians are embracing the future of LEO (low-Earth-orbit) satellite broadband internet connectivity with Starlink. Whether it’s supporting off-grid homes in Big Sur, RVs headed for Yosemite, or maritime activities along the Pacific coast, demand for Starlink is growing rapidly in California and we're here to assist those who wish to have their Starlink professionally installed” said a ProSat Networks spokesperson.

“

From NoCal to SoCal, Starlink is transforming how many Californians live their daily lives by making high-speed, low latency broadband LEO satellite internet accessible.”

*a recent CA customer*

reliable high-speed internet. From the Sierra Nevada foothills to the farmlands of the Central Valley and isolated rural towns, traditional fiber-optic infrastructure often fails to reach the

state's most underserved communities. Starlink is now available to help bridge the gap being called the digital divide.

Unlike traditional internet service providers (ISPs) that rely on costly hard-wired fiber-optic cable, Starlink delivers low-latency, high-speed broadband internet directly from LEO (low-Earth orbit) satellites orbiting approx. 250 miles above the Earth's surface vs. traditional GEO (geostationary) satellites that orbit at approx. 23,000 miles. This allows urban, suburban and rural businesses, homes, arenas, farms, schools, hospitals, clinics, RV parks, campgrounds, hotels, resorts, airports, mobile vehicles, in marinas and on boats cruising the Pacific coast to stay connected with reliable, high-speed internet.

To meet the growing demand, ProSat Networks is now offering Starlink installation services in California for:

#### 1. FIXED LOCATIONS

- CA Commercial Businesses – Enterprise-grade Starlink integrations as the primary or backup ISP for business-class IT networks.

- CA Residential Homes – Reliable high-speed internet is now accessible for remote work, healthcare, e-learning, gaming, streaming—residential rooftop installation in urban and rural California.

- Internet Communities in California (wired & wireless) – High-performance commercial-grade Starlink installations within a defined community where only members are granted user access to the Starlink network. Internet communities may be organized by any hard-wired structures such as data-cabled apartment buildings, condos and commercial buildings, or wirelessly by household (neighbors living within a certain proximity of each other), HOAs, RV parks, campgrounds, hotels, motels, resorts, retreat communities, marinas and more. In an internet

#### Starlink Business Installation in California

community, users or household groups have their own defined levels of access and data usage while sharing the same Starlink terminal (dish).

Starlink internet communities distribute internet access to multiple locations via a wireless mesh network, P2MP (point-to-multi-point) and/or P2P (point-to-point direct line of sight) WiFi networks and hard-wired/cabled with fiber-optic cable, Cat5, Cat6, etc. LANs (local area networks) & WLANs (wireless local area networks). ProSat Networks offers wired and wireless network design, installation and ongoing support for internet communities such as GIS (Guest Internet Systems) for hotels, RV parks, campgrounds and marinas as well as public and private shared internet community networks in California.

## 2. MOBILE AND MARITIME INSTALLATIONS

- Mobile Vehicles & Motorhomes – Internet on the go for RVs, service vehicles, mobile medical units, emergency vehicles, tour buses and motorhomes.
- Starlink Maritime for Boats – Maritime installers available throughout California and Baja California, Mexico to install, repair or upgrade your Starlink maritime solution on your sailboat, yacht, motorboat/cruiser, commercial merchant ship, cruise ship, freighter, cargo ship, houseboat and really just about anything that floats! Coastal and ocean-bound Starlink maritime internet solutions and mobile data plans are available.

Starlink Installation Services Now Available Throughout California, Including:

- Los Angeles County
- San Diego County
- Orange County
- Riverside County
- San Bernardino County
- Santa Clara County
- Alameda County
- Sacramento County
- Contra Costa County
- Fresno County
