

# TXM Solutions Launches Scalable Employer of Record Services to Support Business Expansion in the UAE

*Why TXM Stands Out as the Top EOR Company in Dubai*

DUBAI, DUBAI, UNITED ARAB EMIRATES, May 5, 2025

/EINPresswire.com/ -- TXM Solutions, a UAE-based workforce solutions provider, has launched an expanded suite of Employer of Record (EOR) services aimed at simplifying the hiring, onboarding, and compliance processes for businesses entering or scaling within the UAE market.

As Dubai continues to position itself as a global business and talent hub, companies are increasingly facing challenges in navigating local labor laws and visa regulations. TXM's EOR services are designed to address these needs by offering a legally compliant platform to employ staff, manage payroll, and ensure adherence to UAE labor standards—without requiring businesses to set up a legal entity.

“

Our EOR solutions are designed to remove the barriers companies face when entering or expanding in the UAE,”

“Companies expanding into the region often encounter regulatory and logistical barriers,” said Nitu, Growth Sync Manager at TXM Solutions. “Our EOR model is built to remove those obstacles, enabling faster market entry and more agile workforce management.”

The initiative comes at a time when remote work, freelancing, and flexible employment models are reshaping labor markets across the GCC. TXM has also broadened its offerings to include support for [Freelance Visa Dubai](#) services, particularly for professionals in media, real estate, technology, and other high-demand sectors. This aligns with the UAE's push to attract skilled independent workers and diversify its economy.

In addition to its EOR capabilities, TXM continues to deliver [permanent recruitment](#) solutions, helping organizations across industries secure long-term talent with local market expertise and a data-informed approach to hiring.
