

# Advancing Mining Feasibility Expertise with CMPF™ Program by the Chartered Institute of Professional Certifications

*Chartered Institute of Professional Certifications Launches Certified Mining Project Feasibility and Financial Evaluation Manager (CMPF™) Program*

SINGAPORE, SINGAPORE, May 26, 2025

/EINPresswire.com/ -- The [Chartered Institute of Professional Certifications](https://www.charteredcertifications.com) ([www.charteredcertifications.com](https://www.charteredcertifications.com)), a globally recognized authority in certified executive programs and professional development, is proud to announce the launch of one of its latest professional designations, the Certified Mining Project Feasibility and Financial Evaluation Manager (CMPF™) program. Developed in collaboration with top mining economists, financial analysts, and project evaluation experts, this certification is designed to equip professionals with the comprehensive expertise required to evaluate, model, and drive the financial success of mining projects globally.

The CMPF™ program addresses the growing need for skilled professionals capable of assessing mining project feasibility and conducting robust financial evaluations, critical in today's capital-intensive and high-risk mining environment. Participants who complete this certification will gain a strategic edge in project evaluation, financial modeling, investment appraisal, and risk management, positioning them as leaders in the mining and resource development sectors.

The program's rigorous curriculum covers all key aspects of mining feasibility and financial assessment, including resource estimation, technical analysis, capital and operating cost modeling, discounted cash flow (DCF) valuation, risk and scenario analysis, ESG impact assessment, and investment decision-making. Designed with real-world application in mind, the CMPF™ program integrates case studies, practical modeling exercises, and industry simulations

Mining project feasibility and financial evaluation are at the heart of investment decisions in the global mining industry”

*Bok Yan Lo*

to ensure deep understanding and actionable skills.

“Mining project feasibility and financial evaluation are at the heart of investment decisions in the global mining industry,” said Bok Yan Lo, Managing Director of the Chartered Institute of Professional Certifications. “With the CMPF™ program, we are setting a new benchmark for professional excellence in the mining sector—providing individuals with the knowledge and tools to deliver

accurate evaluations, mitigate financial risk, and ensure long-term project viability.”

The CMPF™ certification is held to the highest standards of academic and professional excellence and is internationally recognized for its relevance, rigor, and industry alignment. Upon successful completion of the CMPF™ program and passing the certification exam, participants will earn the prestigious CMPF™ designation. This globally respected credential is awarded exclusively to professionals who demonstrate advanced competency in mining project feasibility and financial evaluation, further validating their capabilities to employers, stakeholders, and industry peers.
