

HomeWAV Gears Up for National Conference Season with Product Innovations, Continued Commitment to Partnerships

All-in-one inmate communication, technology solutions evolve to disrupt industry standards through expanded product offerings

ST. LOUIS, MO, UNITED STATES, May 6, 2025 /EINPresswire.com/ -- With national conference season just around the corner, HomeWAV, the leader in providing simple, secure inmate communication [solutions](#), is thrilled to announce its upcoming participation in two major events: the American Jail Association (AJA) 44th Conference & Jail Expo in Fort Worth, Texas on May 19–20, and the National Sheriffs' Association (NSA) Annual Conference in Fort Lauderdale, Florida on June 24–25.

HomeWAV Gears Up for National Conference Season with Product Innovations, Continued Commitment to Partnerships

As a proud corporate partner of AJA for more than seven years and NSA for over nine years, HomeWAV is excited to join correctional and law enforcement leaders from across the country to share what is new, what is evolving, and what is next. Attendees can expect a dynamic booth experience featuring live demos of [ComPAS™ tablets](#), hands-on access to expanded product content, and conversations about how HomeWAV continues to raise the bar in facility technology.

"At HomeWAV, everything starts with a simple question: how can we make life easier for officers, administrators, inmates, and families? Whether in county jails or state prisons, our AI-powered, intuitive inmate communication solutions are designed to serve real people in real-world environments," said HomeWAV CEO Morteza Sahebkar. "We stay ahead of the technology curve while never losing sight of those we're here to support. That's what makes our tools smarter, our partnerships stronger, and our mission truly meaningful."

HomeWAV remains dedicated to delivering products and solutions that evolve alongside the needs of facility partners. Driven by a mission to keep facilities safe and communities connected, HomeWAV continually reinvests in advanced technology and software upgrades, ensuring its
