

Daon & Digital.FI Partnership to Deliver Seamless Identity Continuity for Small & Mid-Sized Financial Institutions

FAIRFAX, VA, UNITED STATES, May 8, 2025 /EINPresswire.com/ -- Daon®, The Digital Identity Trust Company, has announced a strategic partnership with Digital.FI, a leader in digital transformation solutions for financial institutions. This collaboration brings enterprise-level [identity continuity](#) to small and mid-sized financial institutions, without the complexity or cost typically associated with such advanced capabilities.

At the heart of this partnership is a shared mission: empowering the smallest financial institutions to deliver secure, frictionless member experiences across every channel. By integrating Daon's identity assurance technology into Digital.FI's solutions, financial institutions of all sizes can now offer Identity Continuity—from [identity verification](#) to [multi-factor authentication](#) to recovery—in one seamless experience.

“

Together, we're enabling organizations to offer the same caliber of security and convenience that was once the exclusive domain of industry giants, while preserving their community-focused approach.”

Tom Grissen, CEO at Daon

Commenting on the strategic alliance, Tom Grissen, CEO of Daon, said, "Identity Continuity is a core principle at Daon that transforms how people interact with their financial providers. Through this partnership with Digital.FI, we're democratizing access to enterprise-grade identity solutions that were previously out of reach for many. Together, we're enabling these organizations to offer the same caliber of security and convenience that was once the exclusive domain of industry giants, all while preserving their unique community-focused approach."

Daon's Identity Continuity framework reimagines member engagement by replacing fragmented verification tools with a unified, lifelong digital identity. With Digital.FI handling the heavy lifting—simplifying deployment, ensuring compliance, and supporting internal teams—financial institutions can modernize their security posture without disrupting operations or straining IT resources.

John Kersse, COO of Digital.FI, expressed his excitement about the partnership, stating, "Our long-standing partnership with Daon revolutionizes identity access, empowering even the smallest credit unions to rival industry giants. Prepare to witness unprecedented competition as we at Digital.FI bring best-of-breed solutions to the forefront."

This partnership reflects Daon's deep commitment to supporting small and mid-sized financial institutions. Rather than simply providing technology, Daon works with Digital.FI to tailor enterprise solutions to fit the unique needs and limitations of each entity, making powerful, scalable security accessible and manageable.

Together, Daon and Digital.FI are closing the digital identity gap—bringing world-class security and user experience to financial institutions of every size.
