consumers injured by defective products purchased on the platform. SHK Law's new comprehensive guide, authored by SHK lawyer Jeremy Robinson, directly addresses the critical question: [Can you sue Amazon for a defective product?](#)

On March 14, 2025, Amazon sued the CPSC, challenging a July 2024 ruling that classified Amazon as a distributor responsible for recalling over 400,000 hazardous items,

including faulty carbon monoxide detectors and unsafe children's sleepwear. Amazon argues it's merely a "third-party logistics provider," but as of April 24, 2025, the Maryland federal court case remains unresolved. This legal battle could reshape Amazon's liability, yet current laws still empower consumers to hold Amazon accountable.

"Amazon can't escape responsibility for defective products that cause harm," said Jeremy Robinson, who secured the landmark [Bolger v. Amazon](#) (2020) ruling. "Courts recognize Amazon's role in the distribution chain, especially through Fulfilled by Amazon, making it liable for injuries."
