

Envu Completes Transfer of Global Specialty Solutions Assets in Mexico and Costa Rica

Milestone strengthens regional Envu presence and expands environmental science portfolio

CARY, NC, UNITED STATES, May 6, 2025 /EINPresswire.com/ -- Envu, a global leader in

“

With the asset transfer now complete, we are able to directly offer customers a broader range of integrated solutions tailored to their needs and backed by Envu's deep expertise...”

Eric Ruggirello, Head of Commercial Operations for EMEA & LATAM

environmental science solutions, today announced the successful transition of FMC Global Specialty Solutions (GSS) assets into its Mexico and Costa Rica operations, representing a notable step for its growth in the Latin America region and an expansion of its offerings for customers. The move follows the close of the Envu acquisition of GSS from FMC Corporation (NYSE:FMC) for \$350 million which was announced in November 2024.

The GSS portfolio includes a diverse range of products that serve multiple environmental science markets. The acquisition strengthens the Envu portfolio offering and capabilities while providing new pathways to innovation for

customers in professional pest management, mosquito management and more through the combined strengths of the organizations.

As part of the acquisition close last year, Envu and FMC agreed to a delayed asset transfer in some countries – including Mexico and Costa Rica – to allow for the completion of certain operating processes to ensure business continuity for customers. Those processes were finalized for both countries on May 2.

“We are thrilled to formally welcome Global Specialty Solutions into Envu operations in Mexico and Costa Rica, marking an exciting new chapter for our business and customers there,” said Eric Ruggirello, Head of Commercial Operations for EMEA & LATAM. “With the asset transfer now complete, we are able to directly offer customers a broader range of integrated solutions tailored to their needs and backed by Envu's deep expertise and commitment to environmental science.”

“The official transition of Global Specialty Solutions assets in Mexico and Costa Rica is an

important milestone in this acquisition,” said Gilles Galliou, Envu CEO. “As a leader focused solely on the environmental science space, we are well-positioned to drive new innovation and can now move forward with maximizing our collective potential in these countries and beyond.”

Envu is committed to a continued partnership with FMC to ensure a smooth transition for customers and ongoing access to innovation.

About Envu

Envu was founded in 2022, a new company built on years of experience, for the sole purpose of advancing healthy environments for everyone, everywhere. Envu ANZ offers dedicated services in: Professional Pest

Management, Golf, Ornamentals, Industrial Vegetation Management, Lawn & Landscape and Range & Pasture.
