#### About OKKAMI

Founded to bridge the gap between traditional hospitality and modern digital expectations, OKKAMI is a leading provider of guest engagement and Internet of Things (IoT) solutions for hotels, resorts, and luxury residences. The company empowers properties with a single, integrated platform that enhances every step of the guest journey, from pre-arrival to post-stay.

OKKAMI's core offering is its white-labeled guest app and webapp, which allows properties to provide services like mobile check-in, digital key access, in-room controls, service requests, spa bookings, restaurant reservations, and integrated payments, all through a unified interface. The platform seamlessly integrates with major Property Management Systems (PMS), Point of Sale (POS) systems, door lock providers, payment gateways, CRM tools, and even wellness and F&B vendors.

By reducing friction across touchpoints and giving guests control over their stay via their own devices, OKKAMI helps hospitality brands boost operational efficiency, increase ancillary revenue, and elevate customer satisfaction. Its clientele includes global hotel chains, boutique resorts, branded residences, and serviced apartments across more than 25 countries.

In addition to its core product, OKKAMI offers a range of modules including loyalty program integration, guest messaging via WhatsApp/LINE/WeChat, multilingual AI-powered chatbots, and marketing automation tools. With a strong focus on data security and scalability, the platform is built to serve the diverse and evolving needs of the modern hospitality industry.
