

Balfour Capital Welcomes Mohammad Saif as Investment Advisor

Hedge Funds, Investments, Trading

YVERDON-LES-BAINS , SWITZERLAND,
May 6, 2025 /EINPresswire.com/ --
Balfour Capital Group Strengthens
Global Investment Team with
Appointment of Accomplished Analyst
Specializing in Multi-Asset Strategies

Balfour Capital Group (BCG), a leading global investment firm renowned for its commitment to research-driven, high-performance asset management, proudly announces the appointment of a seasoned Investment Analyst to its expanding international team. With a comprehensive

background in portfolio management, asset allocation, and investment valuation, this new addition further enhances BCG's capability to deliver superior, risk-adjusted returns in an increasingly complex global financial environment.

“

Respect the market. Have an open mind. Know what to stake. Know when to take a loss. Be responsible.”

*Rakesh Jhunjhunwala, one of
India's most successful
investors*

With a professional foundation built on rigorous financial modeling, economic forecasting, and quantitative analysis, the newly appointed analyst brings a disciplined and forward-thinking approach to investment strategy. Having successfully passed CFA Level III, they demonstrate a

steadfast commitment to analytical excellence and ethical investment practices—values that reflect the core principles of Balfour Capital Group.

In their most recent role at Altivolus Capital Partners, the analyst conducted deep-dive research across a broad spectrum of asset classes including equities, fixed income, and alternatives. Their responsibilities spanned from building sophisticated valuation models—such as DCF, comparables, and leveraged buyout analyses—to performing due diligence on hedge funds and private equity managers. By engaging with industry stakeholders and validating complex investment theses, they played a key role in supporting high-conviction strategies through comprehensive reports, pitch materials, and macroeconomic insights.

Their career began with Air India, where they served as a Financial Analyst Intern. During this

foundational experience, they contributed to strategic financial planning initiatives and evaluated the economic viability of aircraft leasing arrangements. This early exposure to financial structuring laid the groundwork for their analytical rigor and sectoral versatility.

Academically, the analyst holds a Postgraduate Certificate in Quantitative Finance & Risk Management from the Indian Institute of Quantitative Finance, an MBA in Finance from Singhania University, and a B.A. (Hons) in Economics with Finance from the University of Delhi. These credentials underpin a robust theoretical understanding of financial markets and are complemented by practical expertise in leading financial tools including Bloomberg, Capital IQ, FactSet, Power BI, and advanced Excel modeling.

Their technical fluency and insight-driven approach ensure that complex financial data is transformed into clear, actionable intelligence. Their work consistently supports strategic allocation decisions and helps optimize portfolio construction across market cycles.

At Balfour Capital Group, this appointment aligns with the firm's broader mission to recruit top-tier talent with a global perspective and deep analytical skill. The analyst joins a team of professionals united by a common goal: delivering investment solutions that are not only innovative and data-driven, but also firmly grounded in integrity and long-term value creation.

As BCG continues to expand its international footprint, the addition of such dynamic talent reinforces its position as a trusted advisor to institutional investors and high-net-worth clients around the world. The new analyst's ability to synthesize macroeconomic trends, forecast with precision, and contribute meaningfully to collaborative, fast-paced environments will prove invaluable to BCG's clients and partners.

About Balfour Capital Group:

Balfour Capital Group is a globally oriented investment firm offering bespoke financial solutions to institutions and private clients. With a commitment to rigorous research, sustainable performance, and global diversification, BCG leverages a team of world-class professionals to deliver value in today's evolving financial landscape.
