

Candela Matrix® Now Available at Montrose Longevity Clinic: Redefining Aesthetic Treatments with Cutting-Edge Technology

Montrose Longevity Clinic is excited to announce the addition of the Candela Matrix®, a state-of-the-art laser system, to their practice.

“

At Montrose Longevity Clinic, we strive to create a sanctuary where health, beauty, and wellness converge.”

Wendy Campbell

MONTROSE, CO, UNITED STATES, May 6, 2025

/EINPresswire.com/ -- [Montrose Longevity Clinic](#) is thrilled to announce the addition of the Candela [Matrix®](#) to their suite of advanced aesthetic treatments. This state-of-the-art device is set to elevate the quality of their services, providing clients with unparalleled results in hair removal, skin rejuvenation, and more.

About The Matrix®

The Matrix® system offers a new dimension of [radiofrequency](#) (RF) microneedling. This innovative machine is designed to address, sustain, and rejuvenate skin at every stage of aging, helping to maintain a youthful appearance as part of preventive care. It incorporates the latest Matrix Pro®, Sublime™, and Sublative™ RF applicators, offering tailored treatments to meet individual patient needs. The Matrix® system is designed to resurface skin, reduce wrinkles, enhance volume, and fortify skin structure.

Uniquely, this groundbreaking system features impedance monitoring and Depth Intelligence™ technology, providing real-time feedback to ensure consistent, high-quality results for patients.

By leveraging three modalities in a single device and working at up to 3 depths with a single insertion, this multi-application system is radiofrequency, intelligently redefined:

Matrix® Pro Applicator - equipped with an array of the thinnest microneedles on the market that deliver short-pulse RF energy to the skin in a fractional manner. Treatment outcomes include new collagen creation and marked improvement in overall skin appearance and texture.

Matrix® Sublime Applicator - designed to heat skin layers with a combination of infrared (IR) and bipolar radiofrequency (RF) energies to shorten aged collagen fibers and treat wrinkles for a smoother skin appearance. This needleless and non-invasive treatment allows for clinically proven outcomes with minimal downtime.

Matrix® Sublative RF Applicator - stimulates new collagen growth and resurfaces the skin by delivering bipolar RF energy to the skin in a needle-less, fractional manner via an array of multi-electrode pins. This treatment results in smoother skin and the reduction of facial wrinkles.

"At Montrose Longevity Clinic, we strive to create a sanctuary where health, beauty, and wellness converge. Our mission is to empower our clients to achieve their personal goals and feel their absolute best at every stage of life. We are dedicated to delivering cutting-edge treatments and tailored care, combining the latest advancements in science and technology with a compassionate, client-centered approach," said Wendy Campbell, owner of Montrose Longevity Clinic.

"We believe that true vitality is a balance of inner health and outer confidence, and every service we provide reflects that philosophy. From innovative aesthetic solutions to personalized wellness programs, our team is here to support and inspire our clients on their journey to living vibrant, fulfilling lives. At Montrose Longevity Clinic, we're not just enhancing appearances—we're transforming lives," she added.
