Starting something new may result in many new emotions. The first day of school can bring uncertainty, but reassurance can be found in knowing that we are not alone. This is what unfolds in the heartwarming children's book by internationally sold author Shannon Mori. The book will be released worldwide on May 7, 2025.

In Puppy Day Jitters, Dolce is facing all of those first day jitters and her best friend, Sophia, offers all the support, compassion, and encouragement she needs. With a mission to encourage discussion about the universal experience of being anxious or nervous, Mori's book promotes empathy and addresses emotions that go with starting something new.

Puppy Day Jitters will be available in both paperback and hardcover at book retailers, such as [Amazon](#), [Barnes and Noble](#), and [Walmart](#), online globally.

Shannon Mori has had a passion for writing and a love of animals since she was a child.
