

Eco-Friendly Lumber Supplier Expands Sustainable Services in East Bay with Local Delivery

Berkeley-based Truitt & White strengthens its commitment to green construction by offering local delivery and environmentally responsible building materials.

BERKELEY, CA, UNITED STATES, May 6, 2025 /EINPresswire.com/ -- Truitt & White, an established professional contractor supplies provider and eco-conscious building materials supplier in the East Bay, has expanded its sustainable service offerings to better support local contractors and homeowners. The company's new initiatives include enhanced local delivery options and increased access to green-certified products for environmentally responsible construction.

Truitt & White

“

Builders today are facing a dual challenge—keeping projects on time and on budget, while also choosing materials that reflect environmental responsibility”

Brian White

With over seven decades of service in Berkeley and the surrounding region, Truitt & White continues to support the local building community by offering sustainable lumber and construction materials alongside logistical services that reduce environmental impact.

As environmental awareness rises across California, the construction sector is seeing greater demand for green alternatives. Truitt & White's local delivery services help meet this demand by reducing long-distance transportation emissions and ensuring timely material

access for job sites across Berkeley, Oakland, San Francisco, and neighboring areas.

“Builders today are facing a dual challenge—keeping projects on time and on budget, while also choosing materials that reflect environmental responsibility,” said Brian White, Owner of Truitt & White. “We're proud to be part of the solution. Our goal is to make sustainable building

accessible and practical for every builder in the East Bay.”

Expanded Services Support Regional Sustainability Goals

Truitt & White’s updated offerings are designed to help both professional contractors and homeowners incorporate environmentally responsible choices into their projects. Services now include:

- Green-certified lumber and composite materials suitable for both structural and aesthetic use
- Efficient local delivery to improve project timelines and reduce carbon output
- Custom window and door field services, including on-site support and expert installation guidance
- Web Track account tools for real-time access to orders, quotes, and project documentation

Operating from two Berkeley locations—642 Hearst Avenue for [lumber and hardware](#), and 1831 Second Street for [windows and doors](#)—Truitt & White serves as a community resource for sustainable building practices.

Addressing Broader Industry and Environmental Trends

According to the U.S. Green Building Council, demand for [green-certified building materials](#) in California has increased by more than 30% over the past five years. Truitt & White’s expansion reflects this shift, providing materials and support aligned with both state regulations and market expectations for sustainable construction.

In addition to materials, the company offers field services and logistical coordination to help streamline construction and renovation efforts. Their in-house delivery network ensures on-time arrival of materials, reducing downtime and supporting project continuity.

Supporting a Greener Future in the Bay Area

As sustainability becomes an increasing priority in both residential and commercial development, Truitt & White continues to support the region’s builders with tools and materials that align with environmental goals.

About Truitt & White

Truitt & White is a Berkeley-based supplier of lumber, building materials, windows, and doors serving the East Bay since 1946. The company offers green building solutions, local delivery, and expert guidance for construction and renovation projects throughout Berkeley, Oakland, and San Francisco.
