

# Let Go to Let's Go: Hello I Offers Laid-Off Government Workers Free AI Tool To Find New Jobs

*First 1,000 displaced public servants get 6 months of premium access to pivot and find their next roles*

SALT LAKE CITY, UT, UNITED STATES, May 7, 2025

/EINPresswire.com/ -- The average U.S. job seeker needs 294 applications to land a new role, suffering through 5+ months of unemployment. That's the brutal reality facing government workers laid off this year. That's why AI career platform [Hello I](#) is stepping up and fighting back.

Starting today, Hello I is proud to offer 6 months of free premium membership to the first 1,000 displaced federal, state, and municipal employees.

Urgent help is needed. Why?

According to CBS News, 59% of Americans can't afford a \$1,000 emergency in 2025. A prolonged job search risks financial catastrophe for these public servants.

Government workers often lack private-sector networks and resume formats, failing hiring companies' algorithms and missing the networking connections to find work. Our free premium membership lasts 6 months - past the average time it takes Americans on average to find a job.

“

Government workers have dedicated their professional lives to serving the public...They're being thrown into a broken hiring system. Sending 300 applications isn't grit; it's systemic failure.”

*Alessandro Cozzi, Founder  
and CEO of Hello I*

Key Features of the Free Program:

AI Resume Drafting: Our platform translates government experience into private-sector keywords, giving workers a fighting chance. Hello I also adds context to the keywords, catering to ATS and hiring managers alike.

NEW: Cover Letter Auto Creation: A new feature of Hello I - submitting applications in the tool will auto-generate a cover letter draft based on the listing's verbiage.

UPCOMING: Interview Simulator: Users can practice their responses. Hello I can even suggest talking points.

Career Pathfinder: Recommends roles matching skills and salary needs.

Networking Accelerator: Identifies key contacts at target companies.

“Government workers have dedicated their professional lives to serving the public, serving their country,” Founder and CEO of Hello I, [Alessandro Cozzi](#) said. “And the sad truth is that they’re being thrown into a broken hiring system. Sending 300 applications isn’t grit; it’s systemic failure. Our AI gives these heroes a fighting chance to pivot fast and land on their feet. It’s the least we can do for the people who’ve served us all.”

Laid-off government workers can claim free 6-month access to Hello I at the following link:
