

# AOHi Launches the Starship Pro 310W: The Game-Changing Powerful 20,000mAh Power Bank

*Game-changing 310W Power Bank Charges Laptops, Phones, and Tablets Simultaneously at Full Speed*

SAN FRANCISCO, CA, UNITED STATES, May 8, 2025 /EINPresswire.com/ -- [AOHi](#), an independent brand of Aohai technology (stock code: 002993), today announced the launch of its [Starship Pro 310W](#) - the world's first 20,000mAh power bank with a staggering 310W output, now live on [Indiegogo](#). This game-changing power bank delivers wall-outlet-level charging speeds in a portable package.

## Why It Matters:

Most power banks max out at 100W or less, forcing users to choose between charging speed and versatility at a time. The Starship Pro 310W shatters those limits with:

310W total output – Charge a 16" MacBook Pro (140W) + iPad Pro + iPhone simultaneously at full speed, or even charge two 16" MacBook Pro.

180W ultra-fast recharging speed – allows the power bank itself to recharge from 0-80% in just 25 minutes (0-100% in 60 minutes), compared to the 3-6 hours required by conventional power banks.

Smart LED dashboard – Real-time monitoring of power flow and safety status

TSA-friendly design – Compact enough for carry-ons (FAA-compliant 99.5Wh)

"The Starship Pro 310W is like having a wall charger that fits in your backpack," said [Mu Yi], AOHi's Chief Executive Officer. "Whether you're a digital nomad, creative pro, or just tired of dead devices, this is the last power bank you'll ever need."

Limited-Time Opportunity:

Available exclusively through Indiegogo, early backers can secure the Starship Pro 310W at 47% off (\$89) for a limited time.

Availability:

Exclusive Indiegogo campaign live now at:
