Advanced Tier Services Partner that provides next-gen technology services, announced today that it has signed a Strategic Collaboration Agreement (SCA) with Amazon Web Services, Inc. (AWS), with plans to offer a range of AWS services to help small and medium size businesses grow and work more efficiently.

As part of this agreement, Futran Solutions will utilize AWS’s secure and scalable cloud infrastructure to strengthen its capabilities in delivering advanced technology services across insurance, finance, healthcare, and other industries. By incorporating cloud-native

architectures, real-time analytics, and generative AI capabilities, Futran Solutions enables clients to modernize operations, unlock data-driven insights, and deliver faster, smarter outcomes at scale.

“By deepening our collaboration with AWS, we’re taking a strategic step forward in empowering organizations to choose [cloud services](#) that align with their unique goals,” said Anil Vazirani, CEO of Futran Solutions. “This agreement strengthens our ability to deliver customized, results-driven cloud strategies—making every client’s cloud journey more focused, flexible, and impactful.” Futran Solutions and AWS will keep working together to bring useful services to customers by combining their expertise and building new solutions. This agreement shows their common goal of offering real-world value through trusted and easy-to-use technology.

“Partnering with AWS significantly strengthens our ability to deliver smarter, more scalable cloud solutions,” said Darshan Patil, CTO of Futran Solutions. “By integrating AWS’s trusted technologies with our deep industry expertise, we can design tailored, future-ready solutions that drive real business outcomes. This collaboration opens the door to new levels of innovation,

agility, and value for our clients.”

This collaboration underscores the value of Futran Solutions and AWS to provide flexibility and unlock greater business value for customers across industries. For more information please visit Futran Solutions' website
