

# Tamper Evident Packaging Market to Surpass USD 2,775.4 Million by 2035, Driven by Rising Demand in Food Delivery Sector

*Tamper-evident packaging in the USA is set to grow at 3.4% CAGR by 2035, driven by e-commerce, product safety needs, and rising demand for secure deliveries.*

NEWARK, DE, UNITED STATES, May 8, 2025 /EINPresswire.com/ -- The global [tamper evident packaging market](#) is poised for significant growth, with its size estimated to be worth USD 1,948.6 million in 2025 and projected to reach USD 2,775.4 million by 2035. The market is expected to expand at a compound annual growth rate (CAGR) of 3.6% during the forecast period from 2025 to 2035, building upon the USD 1,905.7 million in revenue generated in 2024.

Tamper Evident Packaging Market

A primary driver of this growth is the surge in demand for tamper evident packaging, particularly within the food delivery sector. With consumers increasingly prioritizing safety and freshness, tamper evident packaging has become an essential element of packaging for food products. This shift in consumer preference began even before the COVID-19 pandemic, with tamper-evident solutions becoming a staple in grocery store fresh perimeter departments.

“

Tamper evident packaging is gaining momentum as safety and transparency become top priorities. A key player in building consumer trust across food, pharma, and more.”

As third-party delivery services continue to grow in popularity, the demand for secure packaging

has intensified. Consumers' expectations for food safety and product integrity have heightened, further solidifying the role of tamper evident packaging as a critical component in maintaining trust and ensuring product quality.

### Key Takeaways: Tamper Evident Packaging Market

- The tamper evident packaging market grew at a CAGR of 2.2% between 2020 and 2024.
- By 2024, the market reached a value of USD 1,905.7 million.
- The market in the USA is expected to grow at a CAGR of 3.4% by 2035.
- Spain's tamper evident packaging market is projected to grow at a CAGR of 3.8% through the forecast period.
- In terms of thickness, packaging in the 19 to 50 microns range is anticipated to hold a 41.2% share by 2035.
- Films and wraps are expected to be the leading application, holding 35.4% of the market share by the end of 2035.

### Prominent Drivers of the Tamper Evident Packaging Market

- Growing Consumer Safety Concerns: Increased awareness of product safety and the need to prevent tampering has boosted demand for tamper-evident packaging solutions, especially in the food, pharmaceutical, and cosmetic industries.
- Stringent Regulatory Requirements: Governments and regulatory bodies are implementing stricter regulations to ensure the safety and authenticity of products. These regulations are driving the adoption of tamper-evident packaging, particularly in sectors like pharmaceuticals and [food packaging](#).
- Rising Counterfeit Issues: With the growing prevalence of counterfeit products, especially in high-value sectors like pharmaceuticals and luxury goods, tamper-evident packaging is becoming a crucial tool to ensure product authenticity and protect consumers.
- Consumer Demand for Product Integrity: Consumers are increasingly seeking assurance that products have not been tampered with. Tamper-evident packaging helps build consumer trust and loyalty by providing visible proof of product integrity.
- Advancements in Packaging Technologies: Innovations in packaging materials and technologies, such as security seals, adhesive labels, and induction seals, are enhancing the effectiveness of tamper-evident packaging. These advancements are making it more accessible and cost-effective for various industries.

### Competitive Landscape

Key players in the tamper evident packaging sector are creating and launching new items to the market. They are combining with various organizations and expanding their geographical reach.

A few of them also collaborate and work with local brands and start-up enterprises to produce new products.

#### Key Developments in Tamper Evident Packaging Market:

- Avery Dennison increased RFID penetration in the grocery retail business in October 2024, increasing inventory management, shrinkage reduction, and consumer shopping experience through advanced tracking and tamper-evident packaging solutions.
- In October 2024, the Schreiner Group created a tamper-evident, light-protective label that combines security elements with blinding protection, improving product safety for pharmaceuticals, medical devices, and high-value items.

#### Key Players in Tamper Evident Packaging Market

- Avery Dennison Corporation
- Sealed Air Corp
- Amcor plc
- Selig
- Schreiner Group
- Berry Global Group, Inc.
- ProAmpac
- UPM Global
- Coveris
- CCL Industries, Inc.
- Placon
- DynaCorp
- Traco Packaging
- Guala Closures S.p.A
- American Casting and Manufacturing

#### Tamper Evident Packaging Market Segmentation

##### By Material:

In terms of material, the tamper evident packaging market is divided into plastic, paperboard, glass, metal and biodegradable materials. Plastic material is further sub-segmented into polyethylene (PE), polypropylene (PP), polyvinyl chloride (PVC), polyethylene terephthalate (PET) and others.

##### By Product:

Various products in the tamper evident packaging market are seals and closures, labels, films, bags and zipper pouches, blisters and clamshell packaging. Seals and closures include shrink bands, breakaway cups and tear strips. Labels include security labels and heat-induction labels. Films include shrink wraps and blister packs.

#### By Technology:

Multiple technologies used in the tamper evident packaging market includes adhesive-based, heat shrink, ultrasonic sealing, RFID and smart packaging, holographic technology and laser etching.

#### By End Use:

End Users in the tamper evident packaging market include food & beverages, pharmaceuticals, cosmetics & personal care, automotive, electronics, chemicals and industrial. The food industry further includes packaged food, beverages and ready-to-eat meals.

#### By Region:

Key countries of North America, Latin America, East Asia, South Asia and Pacific, Western Europe, Eastern Europe, Middle East and Africa are covered.
