By participating in CDP's dedicated SME questionnaire, Vantage Circle has taken a significant step toward strengthening its sustainability efforts. CDP scores provide valuable insights that help businesses navigate compliance, manage climate risks, and enhance operational efficiency. These scores are also used by global investors to monitor portfolios, assess future investments, and align with regulatory requirements.

“

This recognition from CDP reaffirms the company's commitment to sustainability and encourages further progress toward a more sustainable future.”

Mr. Partha Neog, CEO and Co-founder of Vantage Circle

Vantage Circle's 2024 CDP SME Climate score, SME B for Climate, serves as a foundation for further innovation and sustainable growth. This recognition motivates the company to continue integrating responsible environmental practices into its operations, refining

transition strategies, and building a culture of sustainability within the organization.

Sustainability is a growing priority for businesses worldwide, and transparency in climate-related initiatives is crucial for long-term success. CDP's framework provides a global platform for organizations to disclose their environmental impact, allowing stakeholders to make informed decisions. By embracing this initiative, Vantage Circle demonstrates its proactive approach to

corporate sustainability and environmental stewardship.

Partha Neog, CEO and co-founder of Vantage Circle says, "Environmental responsibility is a core value at Vantage Circle. This recognition from CDP reaffirms the company's commitment to sustainability and encourages further progress toward a more sustainable future. We remain dedicated to minimizing our carbon footprint and implementing strategies that contribute to a healthier planet."

Vantage Circle aims to build on this achievement by continuously improving its sustainability strategies, setting ambitious goals, and engaging with stakeholders to drive impactful environmental action. The company believes that collective responsibility and innovation are key to addressing climate challenges effectively.
