

Fountain of Youth Spa Introduces Glacē™ Hydrodermabrasion: A Cutting-Edge Treatment for 'Glass-Like' Skin

ST. AUGUSTINE, FL, UNITED STATES, May

15, 2025 /EINPresswire.com/ -- [Fountain](#)

[of Youth Spa](#), a leading provider of advanced aesthetics and skincare solutions in St. Augustine, Jax Beach, and Durbin Park, is proud to announce the launch of [Glacē™](#), a next-generation hydrodermabrasion treatment that combines science, innovation, and indulgent care to help clients achieve visibly radiant, smooth, and hydrated skin.

“

Glacē is the future of non-invasive skincare...It gently exfoliates, detoxifies, hydrates, & brightens the skin in a single session. We're excited to offer this cutting-edge technology to our clients.”

Jaimie Green

The Glacē™ treatment is inspired by the South Korean beauty concept of “glass skin,” which describes a flawless, clear, and luminous complexion. By combining diamond tip exfoliation, tailored serum infusion, cupping massage, and LED therapy, Glacē offers a truly transformative experience with immediate glow and long-lasting results.

According to Jaimie Green, BSN, RN, CME, Laser Specialist and Owner of Fountain of Youth Spa, “Glacē is the future of non-invasive skin treatments. It offers gentle exfoliation,

hydration, detoxification, and brightening—all in one session, and with no downtime. We're thrilled to offer this revolutionary technology to our clients.”

What Is the Glacē™ Treatment?

Glacē is a multi-step, non-invasive skin-purifying treatment that uses a combination of advanced hydrodermabrasion, dual-mode cupping, and LED light therapy to clarify, contour, and illuminate the skin. Unlike traditional facials, Glacē uses single-use diamond tips, customizable serum blends, and a closed-loop vacuum system to improve workflows and deliver highly personalized care for every skin type and concern.

Each Glacē treatment includes:

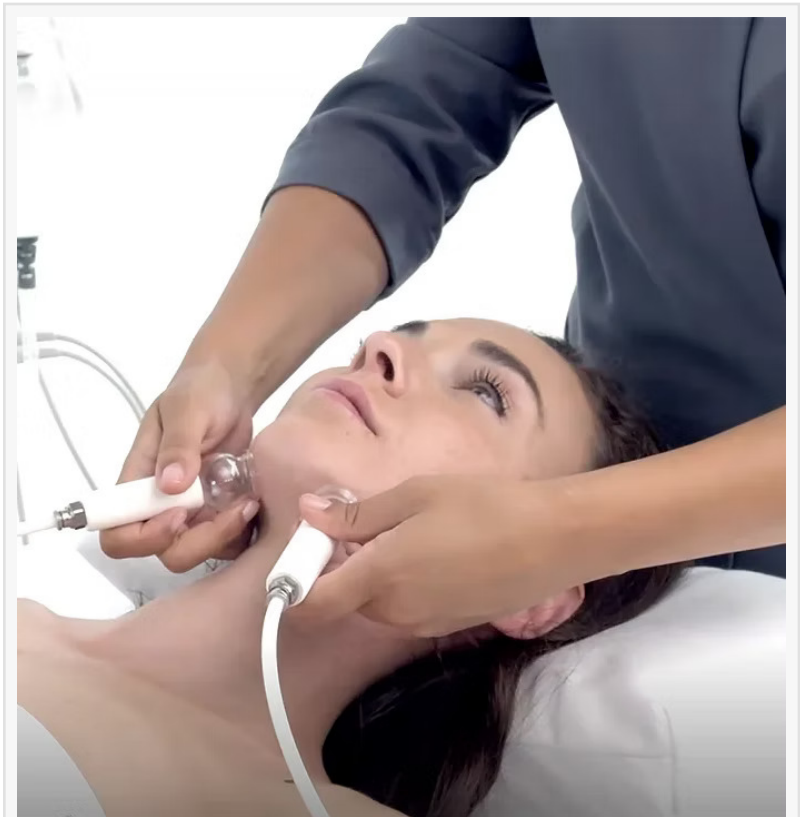

Diamond Tip Hydrodermabrasion: Gentle exfoliation using hygienic, single-use tips in four levels of abrasion to suit different skin types.

Two-Phase Serum Infusion: A tailored combination of cleansing and nourishing serums that deeply hydrate and target concerns like dullness, blemishes, uneven tone, or sensitivity.

Dual-Mode Cupping Massage: Simultaneous pulsed and continuous suction modes promote lymphatic drainage, contour the face, and enhance skin detoxification.

LED Light Therapy: Custom red, green, or blue light settings calm redness, brighten the complexion, and revitalize the skin.

Biocellulose Mask Finish: A cooling, hydrating facial mask enhances skin absorption and delivers a final boost of radiance.

The Glacé™ Treatment

Benefits of Glacé™ Hydrodermabrasion:

Glacé treatments are gentle, relaxing, and designed to deliver visible skin improvements with no downtime. Clients often notice smoother texture, more even skin tone, and a vibrant glow immediately after their luxurious session.

Common skin concerns Glacé can help address include:

Dull or dehydrated skin

Uneven skin tone and texture

Fine lines and loss of firmness

Oily or congested skin

Mild acne blemishes or breakouts

Puffiness and fluid retention

Sensitivity and reactive skin appearance (non-medical)

Because Glacē is non-invasive and fully customizable, it is suitable for all skin tones and types, including those with sensitive or mature skin.

Clinical Results and Client Satisfaction:

Glacē is backed by clinical data showing impressive results in patient satisfaction and skin improvement. In clinical evaluations:

100% of patients reported noticeably cleaner skin after treatment:

92% experienced an improvement in hydration

91% said their overall skin health improved

90% indicated they would book another Glacē treatment in the future

Before-and-after images have shown remarkable improvements in radiance, clarity, and skin texture after a single treatment and continued enhancement with repeated sessions.

A New Standard in Advanced Skincare:

What sets Glacē apart is its ability to combine advanced skincare technology with a luxurious spa experience. Clients not only enjoy visible results, but also a tranquil, relaxing treatment that feels as good as it looks.

With flexible protocols and adjustable vacuum pressure, flow rates, and diamond tip levels, Glacē allows providers to tailor every session for specific skin types and goals. It can be performed on the face, neck, and décolletage, and integrates easily into most EBD procedures and treatment plans, or monthly maintenance routine.

Book a Glacē Treatment at Fountain of Youth Spa:
