

Quality Degree Announces Key Updates to Improve Home Comfort and Air Quality

Quality Degree announces new HVAC innovations, including duct cleaning and A2L refrigerants, to boost system performance and sustainability.

ROYERSFORD, PA, UNITED STATES, May 9, 2025 /EINPresswire.com/ -- Quality Degree, an HVAC service provider with over 25 years of experience in Royersford, PA, and neighboring areas, has announced a series of updates aimed at improving home comfort, energy efficiency, and [indoor air quality](#). These updates include advanced [duct cleaning](#) and [AeroSeal services](#), the introduction of A2L refrigerants, a redesigned iguana mascot, and an expanded selection of

air purifiers, UV bulbs, and filters available for purchase online. Together, these advancements reflect the company's ongoing commitment to innovation, sustainability, and delivering solutions that enhance both system performance and customer well-being.

Improving Airflow and Efficiency with Duct Cleaning and AeroSeal

Quality Degree now offers professional duct cleaning and AeroSeal services to address common issues such as debris buildup and air leakage in ductwork. Over time, dust, allergens, and other contaminants can accumulate in ducts, reducing airflow and compromising indoor air quality. Duct cleaning removes these obstructions, while AeroSeal technology seals leaks, improving system efficiency and guaranteeing cleaner, healthier air for homes and businesses across Central and Eastern Pennsylvania.

A2L Refrigerants: A Step Toward Sustainable Cooling

In alignment with industry advancements, Quality Degree has introduced A2L refrigerants, a next-generation solution for HVAC systems. A2L refrigerants are recognized for their lower global warming potential (GWP) and improved energy efficiency, making them an environmentally

responsible choice for modern cooling systems. These refrigerants also feature enhanced safety measures, delivering reliable performance while supporting sustainability efforts.

A Fresh Look for a Familiar Symbol: The Redesigned Iguana Mascot

Quality Degree has unveiled a redesigned version of its iconic iguana mascot, reflecting the company's commitment to innovation and customer comfort. Inspired by the iguana's sensitivity to temperature changes, the mascot represents Quality Degree's mission to help customers achieve their ideal indoor environment. The updated design symbolizes the company's evolution and dedication to delivering reliable, efficient, and personalized HVAC solutions.

Expanding Indoor Air Quality Solutions for Healthier Homes

To further support healthier living environments, Quality Degree has expanded its indoor air quality offerings to include air purifiers, UV bulbs, and high-efficiency filters, all available for purchase online. These products address a wide range of air quality concerns, from allergens and odors to bacteria and viruses. Air purifiers and UV bulbs work together to neutralize airborne contaminants, while high-efficiency filters capture particles that can affect air quality, providing cleaner, fresher indoor air.

The Significance of These Updates

These updates underscore Quality Degree's commitment to staying at the forefront of HVAC technology and customer service. By offering advanced duct cleaning, Aeroseal services, A2L refrigerants, and expanded indoor air quality solutions, the company guarantees customers have access to the latest innovations for improved comfort, efficiency, and health. These advancements reflect a dedication to addressing evolving customer needs while promoting sustainable and effective HVAC solutions.

Customer Feedback and Reviews

Quality Degree values the experiences and feedback of its customers, as they play a vital role in shaping the company's services and helping others make informed decisions. Customers who have utilized duct cleaning, Aeroseal, A2L refrigerants, indoor air quality products, or any other services are encouraged to share their reviews. These insights not only highlight the impact of Quality Degree's solutions but also guide future improvements and help guarantee the company continues to meet the diverse needs of its clients.
