- 111 sales-focused exhibits that detail the current market and forecast to 2028

The logo for ORTHOWORLD, featuring the word "ORTHOWORLD" in a sans-serif font. The letter "O" in the middle of "WORLD" is replaced by a green circle with a white dot in the center, resembling a stylized eye or a medical symbol.

“As technology reshapes the orthopedic landscape and M&A priorities continue to shift, this year’s report provides a critical roadmap for anyone invested in orthopedic innovation and growth,” said Carolyn LaWell, Chief Content Officer at ORTHOWORLD.

Key Trends Highlighted:

- Joint Replacement: Shoulder robotic platforms emerge as the next battleground; international volumes fuel growth.
- Spine: Technology-driven ecosystems change the competitive landscape and drive consolidation.
- Trauma: Refocus on core trauma and innovation in underserved markets stabilizes the segment.
- Sports Medicine: Regenerative technologies and endoscopic innovation open new frontiers.
- Orthobiologics: Mid-sized players show strong growth; M&A interest intensifies.
- Enabling Technology: Optionality and international robotics programs shape future strategies.

“Our goal is to help orthopedic professionals make better, faster decisions,” said Mike Evers, Senior Market Analyst at ORTHOWORLD. “This report is a powerful tool for understanding where the industry stands today and where it’s headed tomorrow.”
