

Calite AI Launches on Apple App Store — Revolutionizing Nutrition Tracking with AI

Calite AI, the innovative AI-powered nutrition assistant, is now officially available on the Apple App Store.

CHICAGO, IL, UNITED STATES, May 9, 2025 /EINPresswire.com/ -- [Calite AI](https://www.einpresswire.com/Calite-AI), the innovative AI-powered nutrition assistant, is now officially available on the Apple App Store. Designed to simplify calorie and nutrient tracking, Calite empowers users to achieve their health goals effortlessly.

Key Features:

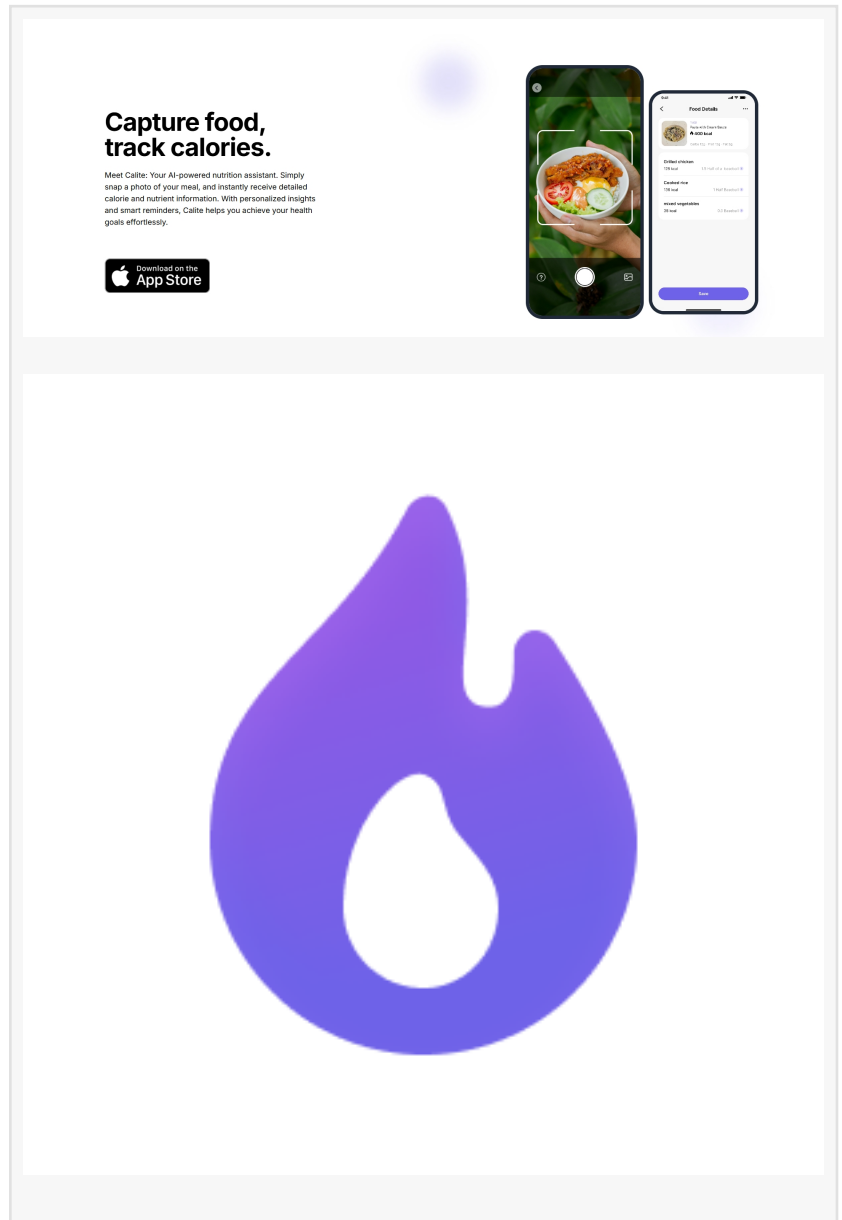

Smart Food Recognition: Advanced AI technology instantly identifies foods from your photos with remarkable accuracy.

Detailed Nutrition Data: Receive comprehensive nutritional information, including calories, macronutrients, and micronutrients.

Personalized Insights: Tailored recommendations and progress tracking help you stay on course with your health objectives.

How It Works:

Snap a Photo: Use your phone's camera to capture your meal.

AI Analysis: Calite's sophisticated AI identifies each component and calculates nutritional content.

Instant Insights: View detailed nutrition information and add the meal to your daily log.

Calite is designed to make nutrition tracking seamless and intuitive, eliminating the need for manual logging. With its user-friendly interface and accurate food analysis, Calite streamlines the process of monitoring dietary intake.

Availability:

Calite AI is now available for download on the Apple App Store. Users can access the full suite of features to enhance their nutrition tracking experience.
