The Winglet Takes Flight

“

We are beyond excited to introduce Unrattled® and The Winglet™ to the world at the ABC Baby Expo.”

Ashley Sherlock

The Winglet is the first of its kind, offering a versatile, portable, and compact support system for lap infants. Whether feeding, resting, playing, or sitting, The Winglet provides parents with a stress-free way to manage their little ones on the go. Designed for children up to 3 years old or 40 lbs, this travel essential is changing the way families experience flights, road trips, and everyday

outings. It's no wonder The Winglet has already sold out twice!

“We are beyond excited to introduce Unrattled and The Winglet to the world at the ABC Baby Expo,” said Ashley Sherlock, Co-Founder of Unrattled® “As parents ourselves, we know the struggles of traveling with little ones, and we created The Winglet with real parents in mind to make those moments smoother, more comfortable, and a lot less stressful.”

Megan Morse, Co-Founder of Unrattled®, added, “We designed The Winglet with our own children in mind so along with comfort and ease, safety has always been our top priority. The Winglet exceeds all of the CPSC and ASTM standards, including the new nursing pillow guidelines

that went into effect in April.”

The ABC Kids Expo, one of the largest trade shows for baby and children's products, is the perfect stage for Unrattled® to connect with retailers, industry professionals, and parents looking for innovative solutions. Visitors to the Unrattled's booth [1352] will have the opportunity to experience The Winglet firsthand and see why it's a must-have for modern families on the move.
