

Home Run Pest & Termite Control Urges Annual Termite Inspections and Offers Effective Treatment Solutions

Home Run Pest & Termite Control urges annual termite inspections to prevent costly damage and offers advanced, customized treatment options for DFW homes.

WYLIE, TX, UNITED STATES, May 12, 2025 /EINPresswire.com/ -- As termite season ramps up in North Texas, [Home Run Pest & Termite Control](#), a leading provider of pest control solutions in Wylie, Rockwall, and surrounding areas, is urging homeowners to schedule their annual termite inspection to protect their largest investment — their home.

Home Run Pest & Termite Control

With the warm, humid weather creating ideal conditions for termite activity, routine inspections have never been more crucial. [Termites](#) cause over \$5 billion in property damage each year in the U.S., often going undetected until it's too late. Home Run Pest & Termite Control is committed to helping local residents catch infestations early and apply the most effective termite treatments available.

“

Termites are silent destroyers — they can chew through wood, flooring, and even wallpaper without showing visible signs.”

Christy Bennett

Why Annual Termite Inspections Matter

“Termites are silent destroyers — they can chew through wood, flooring, and even wallpaper without showing visible

signs,” says Christy Bennett, owner of Home Run Pest & Termite Control. “An annual termite inspection can uncover hidden activity before it becomes a costly problem.”

During a professional inspection, licensed technicians thoroughly examine a home’s foundation,

crawl spaces, and interior for signs of subterranean or drywood termites. Early detection can prevent structural damage and save homeowners thousands in repair costs.

Termite Treatment Options for Every Home

Home Run Pest & Termite Control offers a range of modern termite treatment solutions tailored to the severity of the infestation and the construction of the home:

Liquid Termite Treatments – A proven method where a termiticide is applied around the foundation to create a protective barrier that eliminates existing termites and deters future invasions.

Termite Baiting Systems – Ideal for long-term protection, these eco-friendly stations are placed strategically around the property to attract and eliminate colonies before they reach the home.

Foam & Spot Treatments – Targeted applications used in wall voids and hard-to-reach areas for localized infestations.

Pre-Construction Termite Treatments – Designed for new construction projects to prevent termites before they become a problem.

Peace of Mind with Trusted Local Experts

Home Run Pest & Termite Control is fully licensed and insured, serving Wylie, Rockwall, Frisco, Southlake, and surrounding DFW communities with honest, professional service. With over 20 years of experience, the company continues to earn trust by delivering results and educating
