

\$45K in AI Educational Grants Now Open to High School and College Students

ONLC Training is accepting applications through 2025 for quarterly educational grants that fund free AI training and future-ready skill development

WILMINGTON, DE, UNITED STATES, May 12, 2025 /EINPresswire.com/ -- ONLC Training, a national leader in IT and AI education, has announced the launch of the Future AI Leaders Grant Program, providing \$45,000 in educational grants through the end of 2025. High school and college students across the U.S. and Canada are invited to apply for up to \$3,000 in free training per recipient each quarter. Guidance Offices are encouraged to post the link www.onlc.com/ai-grant-program for students to apply.

“

We're not just preparing learners for today's tools, we're encouraging them to think critically and grow into thoughtful, creative contributors in an AI-powered future.”

Andy Williamson CEO and Co-founder of ONLC Training

Each quarter, five students will be selected to receive full funding for live, instructor-led AI courses. The program is designed to empower the next generation of AI-literate

professionals by providing them with tools, training, and insight into how artificial intelligence is reshaping society and the workplace.

"We believe that today's students are tomorrow's AI collaborators," said Andy Williamson, CEO and Co-founder of ONLC Training. "This grant is about more than technical skills — it's about equipping motivated young people to think critically, build confidently, and lead responsibly in an AI-powered world."

Eligible applicants include high school juniors and seniors as well as college students up to age 24. Applicants will need to go to the ONLC website to complete the application form.

ONLC will award five grants each quarter through the end of 2025. Selected students must begin their training within 30 days of notification and complete courses within six months. All instruction is delivered live online by ONLC's certified instructors and follows the organization's public class schedule.

AI Training Focus Areas Include:

- Prompting and interaction design (ChatGPT, Gemini, Claude)
- AI-integrated productivity and workflow tools (n8n, Copilot Studio, Power Apps and Power Automate, and Zapier)
- Visual creativity using generative AI (Midjourney and DALL-E)
- Responsible AI use and ethical leadership
- Applied AI programming and automation fundamentals

Interested students can explore eligible courses and apply at: www.onlc.com

"We're not just preparing learners for today's tools," added Williamson.

"We're encouraging them to think critically and grow into thoughtful, creative contributors in an AI-powered future."

About ONLC Training

ONLC Training is a trusted leader in technical education with over 100 locations across North America. For over 40 years, ONLC has delivered top-tier training to individuals and organizations through both online and classroom-based instruction.
