

# INNOCN Shares Updated Monitor Pricing Details Ahead of Mid-May Release Window

*Updated Pricing on INNOCN Three Key Monitors—29", 40", and 44"—Tailored for Gaming, Creativity, and Productivity*

SHENZHEN, GUANGDONG, CHINA, May 13, 2025 /EINPresswire.com/ -- INNOCN, a leader in display technology, has just unveiled new pricing for three of its ultrawide monitors, available from May 12 to May 18, 2025, on Amazon.

In today's fast-paced world, people are constantly balancing multiple tasks at once—whether it's working across multiple tabs, streaming content, or creating designs. Having the right monitor can make all the difference, and with more people looking for ways to enhance their workspace, ultrawide monitors are becoming an essential tool. These monitors help users make the most out of their screen space by offering more real estate than traditional displays. Whether you're a business professional managing multiple projects, a gamer seeking a more immersive experience, or a creative working on complex visual tasks, ultrawide monitors help streamline your workflow and enhance your screen time.

INNOCN [29C1F-D](#): Compact Power for the Modern Desk

Designed for users who want an expansive viewing experience without taking up too much space, the INNOCN 29C1F-D features a 29-inch ultrawide display and a 100Hz refresh rate. It supports USB-C connectivity and offers a sleek, minimalist design, making it an excellent fit for compact workstations or home offices.

Whether you're managing multiple tabs, attending virtual meetings, or simply streaming content, this monitor provides smooth performance and better screen management. Previously priced at

\$199.99, it is now available at \$169.99, offering a \$30 price reduction for users looking to streamline their workflow without overspending.

## INNOCN [40C1U](#): Expand Your Creative Vision

For designers, editors, and content creators, the INNOCN 40C1U delivers a sharp 5K resolution on a 40-inch screen with a 100Hz refresh rate. This monitor enables precision work—like multi-track video editing, detailed photo retouching, and side-by-side layout comparisons—all in one expansive workspace.

Its clarity and scale reduce the need to constantly switch between tabs or tools, giving creatives the room they need to focus and deliver their best work. Originally listed at \$999.99, the 40C1U is now priced at a discounted rate of \$749.99 for a limited time through the use of promo code 40C1U5KM during checkout.

## INNOCN [44C1G](#): Designed for Immersive Gaming and Seamless Multitasking

Built for users who crave both immersion and efficiency, the INNOCN 44C1G boasts a massive 44-inch curved display, a 32:9 ultrawide aspect ratio, and a 120Hz refresh rate. It's an ideal solution for gamers looking for broader peripheral views, streamers running multiple windows, or professionals managing several applications at once.

The curved design draws users into their content while reducing screen clutter, enhancing both focus and comfort during long sessions. With a former price of \$649.99, the 44C1G is now available for \$479.99, offering a \$170 reduction for those seeking maximum performance in a single-screen setup.

As more users prioritize efficiency, focus, and visual clarity, ultrawide monitors are becoming a staple of productive, modern workspaces. From refining design drafts to managing high-intensity workflows or simply enjoying immersive entertainment, INNOCN's displays are tailored to meet the moment.

Each model—the compact 29C1F-D, the ultra-detailed 40C1U, and the multitasking powerhouse 44C1G—was developed to match distinct user needs while delivering a consistent standard of visual performance and thoughtful design.

### Promotional Pricing Available for a Limited Time

These updated prices are part of a limited time offer available exclusively from May 12, 2025, at 12:00 AM PDT to May 18, 2025, at 11:45 PM PDT. The promotional pricing will revert to standard rates after this period.
