Is the [Malignant Mesothelioma Market](#) Set to Witness
Substantial Growth?

Projected to keep this momentum, the market is expected
to soar to \$3.41 billion in 2029, boasting a CRAG of 6.7%.
Key factors such as the embrace of immunotherapy

treatments, the rise in utilization of minimally invasive surgical procedures, increasing healthcare expenditure, and the growth of clinical trials are said to be the drivers of this projection.

Advancements in early detection initiatives, regulatory approvals, and personalized medicine further complement this growth in the future.

What Drives The [Malignant Mesothelioma Market Growth](#)?

Further propelling this market rise are the growing clinical research and development efforts. As the demand for improved treatments and the prevalence of chronic diseases increase, so do the efforts to develop new drugs, treatments, and medical devices. These endeavors involve stringent testing of new products for safety, efficacy, and potential side effects through rigorous controlled clinical trials. For instance, in January 2025, Anadolu Agency, a Turkey-based state-run news agency, reported that clinical trials constitute nearly 40% of the U.S. pharmaceutical research budget, totaling about \$7 billion annually.
