

Eurotech Elite Introduces Exclusive New Toro Series of Flat Bed Lathes in North America

BROOKSVILLE, FL, UNITED STATES, May 13, 2025 /EINPresswire.com/ --

Eurotech Elite, America's premiere source of multi-axis, [high precision CNC machines](#), has expanded its product line with the launch of the Toro Series – a revolutionary horizontal flatbed lathe lineup engineered with elite European craftsmanship and tailored for North America's most demanding industries.

Eurotech Toro Series 5 Star Evo

"The Toro Series is built for power and is the #1 trusted brand for the oil and gas and aerospace industry in Europe, so it was the perfect partnership for us – a combination of European precision and advanced technology with unmatched options." – Jeff Walz, President of Eurotech

Key Highlights of the Toro Series

- Premium Threading Capabilities: Delivers superior threading performance not commonly available from competing flat bed lathes – ideal for oilfield and power industry components.
- Massive Capacity: Machines with up to 65 feet between centers and the ability to handle parts up to 90,000 pounds, making them the go-to solution for extreme part sizes and heavy-duty applications.
- Expanded Guideway Design:
 - Additional guideways provide greater stability and support for the workpiece
 - Enhanced vibration damping ensures higher accuracy
 - Better load distribution extends machine life and cutting consistency

□ Precision and Rigidity: The structural integrity allows for tighter tolerances and smoother finishes even under the most aggressive cutting conditions.

□ Versatility Across Industries: Built for oil & gas, power generation, rail, shipbuilding, aerospace, and other large-format machining sectors.

□ Trusted European Build: Manufactured by our partner in Italy – known across Europe for quality, innovation, and performance.
